PRESENTATION BY
STEPHANIE RITCEY
9:25 A.M. – 9:50 A.M.

Stephanie Ritcey, Supervisor of Student Services, updated the Board on the Integrated Service Contract with Region 10. The integrated services contracted started three years ago 2011-2012 school year, which had Region 10 hire 0.5 of a success coach from When We Are Healthy. The idea behind the contract was to provide a full time position for the Success Coach in the community as only 0.5 was funded under When We Are Healthy, the other half time had the coach working on referrals for Region 10. The referrals included supervised visits and transporting clients to meet the requirements outlined by Region 10. This had a huge success in the community that in 2012-2013, the contract was expanded.

2012-2013 school year the contract includes a 0.5 worker in Gift Lake and a 1.00 FTE in East Prairie. The worker in East Prairie has 3 main goals; 1) operate at Parent Link Center; 2) Region 10 referral; and 3) Support to the school.

This year has been successful and currently Region 10 is exploring the option of expanding the contract for next year.

1.00 FTE for both Gift Lake and East Prairie. This would help both of these communities build up capacity for June 2014 when the When We Are Healthy Project is set to end.

PRESENTATION BY
GAIL SAJO
9:50 A.M. – 12:05 P.M.

Gail Sajo, Literacy Coordinator, presented to the Board an update on PM Benchmarks. In the first year of the Northland School Division No. 61 Literacy Initiative, some of the highlights were presented to the Board. These included:

- The twofold purpose: a) to improve teaching practice and b) to improve learner outcomes.
- An introduction to the data collected, analyzed, and interpreted division-wide, in school and class groupings, and individually.
- The data revealed trends in growth and attainment, identified zones of intervention.
- Among the trends, we see entry level (Grade 1) students achieving at grade level; students beginning to slip as early as Grade 2 where we have flagged a need for extra support (yellow zone); students in need of intervention (red zone). As students reading at or above grade level move into higher grades, evidence shows a decline or slowing in their forward movement. Yellow and red zone students show converse increases. This is an area to work on with administrators and teachers. However, all student groups are showing growth, a positive outcome.
- A need to drill down in the data to correlate against attendance;
 - an opportunity to consult with PEDs, administrators, teachers, parents, and communities around next steps toward supporting student growth and attainment;
 - monitoring and supervising teachers and administrators in implementing both assessment and instruction with fidelity and frequency;
 - using oral language at all levels to build relationships and engagement;
 - celebrating the background and experiential knowledge students bring into the learning environment and using this knowledge to propel student learning;
 - ways to engage parents and students in literacy within the communities.

Thanks to Jan Ruhl, Lorraine Cardinal-Roy, and Margaretha Ebbers from Alberta Education for sitting in on our session.

Snap Shot into Aboriginal Education

High School Completion of Aboriginal Students

What are the barriers encountered by Aboriginal students in completing a high school program in Northern Alberta?

What are the factors/descriptors cited by Aboriginal students that inhibit/assist Aboriginal students to complete a traditional High School program in Northern Alberta?

Participants are self-identified Aboriginal youth. Some who are attending a traditional High School program and some who have chosen to leave a traditional High School Program

Implications are recommendations strategies to increase traditional High School completion rates of Aboriginal students

Significance of the study

The issue of Aboriginal education is a major topic of concern due to the high non-completion rates of these students in high school programs and the consequential effects this situation creates in society. My project extends the work, knowledge, and other research in Aboriginal education research. My project addressed the gap in the literature concerning inclusion of student voices in the topic of high school completion rates of Aboriginal students.

Barriers

- The participants identified four common themes that inhibit Aboriginal students from completing a Traditional High School program. They were reported as (a) challenges due to cultural differences and lack of cultural understanding (b) conflicting teaching styles and learning preferences (c) family and societal issues and (d) resources and materials.

The participants identified two common themes that assist Aboriginal students from completing a Traditional High School program

- They were reported as (a) family support (b) peer relationships.

There were two other themes cited by the Non-traditional High School Students talking circle only (c) school environment (d) programs and resources.

The last theme was supported by the Traditional High School students only (e) positive outlook.

What teachers and schools can do

What Teachers and Schools Can Do

Indicate which actions you would be willing to take as an individual (I) and which ones you could undertake as a staff (S).

 Involve the community in the school. View all community members as potential teachers and all community events as potential learning opportunities. Create an open, welcoming atmosphere that invites parent and community support and involvement. Cosponsor activities and events with the community. Consider working with extended families to help with academics. Reinforce efforts to pass on culture. Seek partnerships with the community and work with organizations that can offer support and programs.

 Involve parents. Invite FNMI parents to your school to share their skills and knowledge with the students. Ask them for specific assistance that taps their areas of expertise. Encourage them to share their stories.

 Support Aboriginal liaison programs. These programs provide a valuable link between the home, school and community. They can assist students making transitions required to succeed in school.

 Create spaces for bulletin boards, displays and other visuals throughout the school. Decorate the school with symbols and artwork relating to FNMI culture. Post the work of all students and encourage them to portray themselves and others positively.

 Provide cultural, language and language-immersion programs. A key step in preserving culture is maintaining the language.

 Respect elders. Elders are men and women chosen by the FNMI community to be the keepers and teachers of oral tradition and knowledge. They are recognized for having spiritual wisdom and cultural knowledge. Elders offer advice on traditional and contemporary issues. Asking for their guidance and recognizing their status is respectful. Encourage students to respect elders and to share the elders' wisdom.

 Establish basic expectations in the school code. Establish codes of conduct and ways to handle expressions that demean students. Be proactive.

 Provide resources and training for teachers and school counsellors. Reference materials and contact information for relevant organizations are imperative for those who work directly with students.

 Be active in encouraging students to remain in school. Provide reasons and relevance continually.

- Create flow charts and diagrams that display paths to successful school completion and career opportunities.
- Illustrate and feature successful role models.

First Nations, Métis and Inuit Education—Taking Root, Branching Out

- Allow for student input in selecting activities of interest. For example, outdoor education, survival training and field trips can be motivational and culturally relevant. Where possible, use traditional settings such as camps or historic sites.
- Provide work-experience placements. Work experience helps students set goals and makes education relevant.
- Invite guest speakers to provide workshops on self-esteem, humour, alcohol/drugs, health and teenage pregnancy.
- Offer scholarships for FNMI students that focus on a variety of skills and interest areas such as physical education, the arts or academics.

Hire teachers and administrators whose background is similar to their students. Students identify with any good teacher, especially one from their own ethnic group.

Provide orientation for new teachers. It is important for new teachers to learn about the cultural expectations of the school and community. The orientation should include explicit statements regarding the cultural values of the community in school policies, programs and plans.

Offer cultural-awareness seminars for professional-development days. This idea should come from the staff rather than the administration. Find ways to encourage but not demand participation.

Identify your top three choices for yourself (in your role as teacher, counsellor, administrator, liaison, other).

[Education Spending First Nations](#), [First Nations Schools](#), [First Nations Funding Education](#), [INDIAN ACT](#), [Aboriginal Education](#), [Canada First Nations](#), [On-Reserve Schools](#), [Canada Impact News](#)

If you were not sure your car could get you to your destination, would your first thought be to change drivers?

Education on-reserve is a vehicle that often fails to reach its goal: graduating students from high school ready for the job market or post-secondary education. The program operates under challenging circumstances and is paid for using an outdated funding formula that leaves it chronically underfunded.

This month, Aboriginal Affairs Minister Bernard Valcourt reiterated former minister John Duncan's announcement that the most important element in the plan to reform education on-reserve will be new standards and new structures. In other words, he believes that if you were in a very old car, heading down a bumpy road, unsure of whether you had enough gas, your best bet would be a new driver, armed with a new manual.

The government is also proposing the "principle" of "stable and predictable funding", but makes no promises about the actual funding levels: It has repeatedly refused to work jointly with First Nations to come up with a new funding formula. This is a bit like Mr. Duncan promising to stop by the service station more often, without saying when he will actually top up the gas.

Few Canadians know that since 1996, the federal government has placed a 2% cap on increases to funding for programs and services on-reserve, including education, no matter how fast the population grows or the cost of existing services increases. Since Canada's Aboriginal population is growing at about 1.8% (almost twice as fast as Canada's population as a whole), and prices go up, funding levels have effectively gone down for the past decade and a half.

Currently, the Indian Act does not actually provide for local control of education on-reserve: The legislation still contains the old provisions once used to send children to residential schools, though they are no longer applied. In practice, the federal government usually delegates

management to band councils and it uses contribution agreements to set the conditions: The schools must meet provincial standards, even though they do not receive the same level of funding as provincial schools.

The federal government now apparently wants to take responsibility away from band councils and give it either to provincial school boards or to new First Nation Education Authorities, which will function much like provincial school boards.

The proposed legislation would also allow for existing schools on-reserve to become "community-operated schools" - separate, it seems, from the band councils that have run them up till now - but warns that to meet the new standards, schools are likely to need the "better support and more comprehensive access to services" that education authorities or provincial school boards can provide.

The Auditor General has pointed out that elementary and secondary education on-reserve lacks a clearly-defined management framework of the kind that provincial education acts provide. But more importantly, the Auditor General has criticized the federal government because it lacks any strategy for closing the "education gap" between those living on reserves and other Canadians. In 2001, only 41.4% of those aged 15 or older living on-reserve had finished high school, compared to 68.7% of the Canadian population as a whole.

Good governance for education on-reserve is a valuable goal, including a better management framework, but there is no evidence that if either the new First Nation Education Authorities or existing provincial school boards run the schools, they will close the education gap.

According to statistics kept by the Québec government, results in Aboriginal communities in that province are no better for the roughly half of students who attend school boards under provincial jurisdiction, than for the other half who are educated under the authority of their band councils.

In Québec, students normally complete high school at age 16 and three-quarters of students in the province managed to finish by that age in the 1996-1997 to 2001-2002 period. During the same period, however, fewer than 30% of 16-year olds in Québec's Aboriginal communities (Indian reserves, Cree and Naskapi communities, Inuit northern villages) had finished high school.

That is a clear indication of a problem, but the evidence suggests it is not solved simply by using provincial governance structures. Across all the reserves of Québec, where band councils either run the schools or pay for students to attend nearby public or private schools, the proportion of 16-year olds enrolled in their last year of high school in 2001-2002 was 29.1%, or about the same as the provincial average for Aboriginals (29.7%).

Results varied widely in northern Québec, where students attend either the Cree School Board or in the case of the Inuit, the Kativik School Board: These are locally-elected authorities, established under a land claims agreement, but subject to provincial law and receiving joint federal-provincial funding. In 2001-2002, almost 40% of 16-year-olds among the Cree were in the last year of high school, but the figure was less than 20% among the Inuit.

More telling is the fact that the proportion of Aboriginal students still completing the last year of high school at the age of 19 years or older was about the same whether on-reserve or enrolled in the Cree School Board or the Kativik School Board: around 25%. (Among the Québec population as a whole, fewer than 2% of those aged 19 or older were still finishing high school in 2001-2002.)

In Alberta, the Northland School Division No. 61 serves a student population in northern remote communities, almost all of whom are either registered Indians or Metis. It operates with a board elected under provincial rules and is funded by and accountable to the province.

However results were so poor for so long that in 2010, Alberta's education minister suspended the elected board and appointed an official trustee to run the Northland School Division. Only 19.4% of its students had finished grades 10 through 12 within the past three years as of 2009, compared to 70.7% for the province as a whole.

These examples are not meant as a criticism of the school boards, which often operate under challenging circumstances. As a report to the Alberta government on the Northlands School Division explained, it serves about 2,900 students at 23 schools, most of them "small or very small," some as far 700 km away from the central office and two of them only accessible by air for much of the year. The schools also deal with high teacher turnover, poor attendance, and children who speak only Aboriginal languages at home.

The Auditor General found similar challenges facing schools in First Nations communities, most of which are small (fewer than 500 residents) and many of which are remote. In fact, the Department of Indian Affairs and Northern Development did its own evaluation of elementary and secondary schooling in 2009 and acknowledged that across the country, education scores on reserve decreased the further away students lived from a major service centre and the further north they lived.

First Nations are looking for an educational system adapted to their realities and their culture. Not only do their elected Councils support the idea of regional bodies, they have already created them. In Québec, for instance, the First Nations Education Council provides support for programs and services on reserves across the province. In Nova Scotia, the majority of First Nations reached an agreement with the federal and provincial governments in 1997 to create their own Mi'kmaq Education Authority for on-reserve schools.

Unfortunately, the federal government's new approach seems to be based on the view that band councils are the problem and provincial school boards (or bodies like them) are the solution. But the evidence shows the government will not be able to solve the problems experienced by schools on-reserve simply by handing responsibility for them over to new or different institutions.

The Minister of Aboriginal Affairs is promising "better outcomes for students by creating standards and structures," but the students will remain in the same communities with the same challenges. The road to the better outcomes Mr. Duncan and Mr. Valcourt seek will not get any easier, just because they would like someone else to do the driving.

CORRECTION: A previous version of this article incorrectly stated that John Duncan was still the Aboriginal Affairs Minister.

Regional Collaborative Service Delivery Parent FAQ

June 2013

What is Regional Collaborative Service Delivery (RCSD)?

RCSD is a new regional model designed to more effectively meet the learning needs and well-being of children and youth. It will achieve this by strengthening the capacity of service providers to work collaboratively to coordinate and integrate supports and services.

RCSD begins with the merging of Student Health Partnerships and Children and Youth with Complex Needs and then Regional Educational Consulting Services. The objectives of RCSD are to:

- Improve access to supports and services
- Build capacity of communities including school staff, service providers and families
- Improve integration and coordination of supports and services

Who is eligible for supports and services through Regional Collaborative Service Delivery?

- Children or youth who are registered with Alberta Education in the Early Childhood Services (ECS) to Grade 12 system in one of the following programs are eligible:
 - public school program (provided by public or separate school jurisdiction, or charter school)
 - private school program
 - private ECS operator program
 - institutional education program
 - homebound program or home education program
 - alternative program such as online, blended and outreach
- Children and youth who have been identified as having a low incidence disability or who require a coordinated plan for wrap-around service delivery through a multi-disciplinary team approach.
- Children and youth with complex needs between the ages of 0 and 20.
- Educators and other school staff, families, service providers and community providers through cross-sector training and capacity building.

What types of supports and services are available for my child through Regional Collaborative Service Delivery?

The types of supports and services available for an individual child or school may vary according to the service priorities identified by the RCSD Leadership Team. However, all regional collaborative supports and services must be related to improving a child or youth's ability to participate in their educational program or transition to and from their educational program to the community.

My child has been receiving support from Children and Youth with Complex Needs (CYCN) and has been identified for continued support into the next school year. Will my child continue to receive support through Regional Collaborative Service Delivery?

Your child should see no disruption of supports for the 2013 -2014 year.

If my child has been receiving supports from Children and Youth with Complex Needs and has been identified to continue to receive support for 2013 2014 through Regional Collaborative Service Delivery will I need to provide new consent for child's information to be shared?

You will be asked to provide consent to authorize the transfer of files.

How can I find out about supports and services that maybe available through Regional Collaborative Service Delivery?

If you require further information regarding supports and services available through RCSD, please contact the Provincial Office at:

Dear Dr. Kelly:

I am writing to update you on the status of your request for funding from the Capital for Emergent Projects (CEP) program in the amount of \$1 million for the mould remediation work that you have undertaken at the Athabasca Delta Community School, Gift Lake School and Little Buffalo School. When I last wrote to you, I let you know that this project was added to Alberta Infrastructure's CEP priority list and would be revisited if funding became available.

Given the Government of Alberta's fiscal challenges highlighted in *Budget 2013*, some tough decisions were required. This included reduced funding and cancellation of some programs across government. The CEP program has been discontinued, effective April 1, 2013. Projects that were previously approved and are currently underway will be completed; however, no projects on the CEP priority list will be considered for approval or funding.

While Infrastructure is not able to support your project request through the CEP Program, we are working closely with Alberta Education and your Board to establish a plan to address the mould issues in your schools.

Sincerely,

Wayne Drysdale
Minister

Dear Dr. Kelly:

On behalf of the Minister of Education, I am pleased to advise you of the following funding decision for your board:

Approval to revise the total project cost from \$20,634,960 to \$20,913,819 for the 2006-2007 Bill Woodward New School in Anzac (File No. 18012). The funding shortfall of \$278,859 will be offset by interest earned and internal board resources, and no new government funding is required.

To Board Chairs, Superintendents, Secretary Treasurers, School Councils and Parents,

As we have watched the devastation of our neighbors in the southern part of our province we want to reiterate that our thoughts and prayers are with you.

We know many schools have been affected by flooding in the southern region, and while the urgency of the situation has begun to decrease, the job of assessing infrastructure damage and looking ahead has begun. The devastation has not only affected the infrastructure and operations of our school communities but the emotional loss is being felt acutely.

We are amazed at the resilience and hard work of our senior staff, school staff, trustees, councils and parents that are working around the clock to bring some sense to this devastation. Your leadership throughout this emergency has been unbelievable. We are thankful that everyone is safe.

Those of us not in the flood zone feel a sense of helplessness as we watch in amazement at the recovery efforts taking place. At this time, while the assessment of infrastructure damage is ongoing, we are told that the only kind of donation needed is financial. If you, or your school board would like to make a donation please go to the Red Cross website www.redcross.ca or call 1-800-418-1111.

On behalf of the ASBA, CASS, ASBOA, and ASCA, thank you for all you are doing during these very stressful times. If there is anything that we can do to support you in your efforts of recovery please don't hesitate to contact us.

Warmest Regards,

Jacquie Hansen, ASBA President

Subject: Board Chairs Email # 60 - Regulation Review Update

Good afternoon colleagues,

While we have come to the end of the school year, work continues on a couple of fronts, one of which is the development of the Regulations for the Education Act.

The new Education Act grants authority to the government to establish regulations in 35 areas. A document outlining these areas is attached. Executive Director David Anderson and I attended a meeting hosted by the Regulatory Review Committee for education stakeholders on behalf of the the ASBA last week to hear plans for how the Department will proceed in developing these regulations.

The Regulatory Review Committee, which will oversee the development of the regulations, consists of MLA Maureen Kubinec as Chair, along with MLAs Matt Jeneroux, Christine Cusanelli and Linda Johnson, public member Jim Gibbons and ex-officio members Minister Jeff Johnson and Department of Education ADM Michael Walters. Jim Gibbons is on the committee in his former role as a member of the Inspiring Education Steering Committee - not in his current capacity as ASBA's senior education advisor.

Deputy Minister Gregg Bass also attended the meeting.

The meeting provided an overview of the Regulatory Review Consultation process. The process that the committee has approved includes a public on-line consultation, face to face consultation activities and written submissions. It is envisaged that the public part of the process will start very soon, and will be concluded by the end of October, 2013. I expressed concern with these timelines, particularly given the intervening summer period. Many other organizations expressed the same concern.

I would encourage you participate both as an individual trustee as well as a corporate board.

The regional consultation meetings for the public and interested stakeholders are tentatively scheduled for the following dates:

- P • e • a • c • e • R • i • v • e • r • - • O • c • t • o • b • e • r • 3 •
- C • a • l • g • a • r • y • - • O • c • t • o • b • e • r • 8 •
- L • e • t • h • b • r • i • d • g • e • - • O • c • t • o • b • e • r • 9 •
- E • d • m • o • n • t • o • n • - • O • c • t • o • b • e • r • 1 • 6 •
- R • e • d • D • e • e • r • - • O • c • t • o • b • e • r • 1 • 7 •

The Department has also established 35 'working groups' to tackle the important task of fleshing out the draft regulations. The ASBA has been invited to send administrative representatives to 30 of these working groups. The anticipated completion timeframe for the entire process is the summer of 2014, leaving a year for school boards to create policies and procedures before final proclamation of the Act in September, 2015.

It is anticipated that the ASBA will develop a written submission to the Minister as part of this process.

The committee asked each of the organizations in attendance to make a statement about their organization's expectations in regard to the regulatory process. I responded that the ASBA would be looking for regulations that meet three "lenses":

- T • h • e • r • e • g • u • l • a • t • i • o • n • s • a • r • e • e • n • a • b • l • i • n • g • , • r • a • t • h • e • r • t • h • a • n • r • e • s • t • r • i • c • t • i • v • e •

- A • n • d • , • t • h • a • t • a • n • y • a • d • d • i • t • i • o • n • a • l • c • o • s • t • s • t • h • a • t • a • r • e • g • e • n • e • r • a • t • e • d •

- w • o • u • l • d • b • e • f • u • l • l • y • f • u • n • d • e • d • . •

We will continue to update you as the process unfolds, and consult with you as we develop ASBA positions on the regulations being discussed. Please share this email with your fellow trustees. Please contact David Anderson or myself if you have any questions.

I hope you are able to take time with family and friends over the summer, I will keep you posted with any developments. Have a great summer!

Overview of ASBA Governance Authority

ASBA ACT

The ASBA exists by authority of an act of the legislature known as the *ASBA Act*.

Part of the authority vested in the Government of Alberta has been delegated through this act to an association known as the Alberta School Boards Association.

The *ASBA Act* empowers the association to set bylaws in a general meeting respecting the following:

- a. the election of the executive and officers of the association;
- b. the formation, regulation, management and dissolution of zones and other sections or divisions of the association, and providing for the delegation to them of any powers it thinks fit, including the power to pass bylaws and rules for the management and regulation of their own business;
- c. the management of property and affairs of the association;
- d. the internal organization and administration of the association;
- e. the maintenance of the association;
- f. the fixing of annual and other fees payable by the members of the association;
- g. the time, place and conduct of the annual and other meetings of the association;
- h. any other matters that it considers necessary or convenient for:
 - (i) the management of the association
 - (ii) the promotion of its welfare and the conduct of its business;
- i. the date of commencement of the financial year of the association.

ASBA BYLAWS: GENERAL MEMBERSHIP DECISION-MAKING AUTHORITY

The ASBA bylaws, set by the membership, currently stipulate that some decisions can only be made at a general meeting. These include:

- a. Elect the president and the vice-president
- b. Set the association's annual budget
- c. Assess membership fees
- d. Amend bylaws and request amendments to the constitution
- e. Establish association policy positions

BOARD OF DIRECTORS' DECISION-MAKING AUTHORITY

Since general meetings occur only twice per year, the ASBA membership empowers the board of directors, through bylaws, to make decisions in specific areas.

Bylaw 7 provides that the business and affairs of the association are under the direction and control of the board of directors. This bylaw further contains a broad delegation of authority, which allows the board of directors to exercise all powers of the association save those which are required to be exercised by the association at a general meeting, as noted previously.

The bylaw further notes that, without limiting the generality of this broad delegation provision, the board of directors:

- a. Shall appoint an executive director as chief executive officer of the association, establish his term of employment and salary, prescribe his duties, and monitor and evaluate his performance;
- b. May delegate any or all of its powers to the executive director, executive committee of the association, or a committee appointed by it;
- c. May appoint either from its own members or others such special committees as it may from time to time deem advisable and prescribe their duties and functions;
- d. Shall pay the reasonable out-of-pocket expenses of its members and others;
- e. Shall pay a per diem allowance, as determined at the general meeting, to its members and others;
- f. Shall make provision for the payment of honoraria, as determined by the general meeting, to board of directors members;
- g. May adopt policy positions on matters which arise between general meetings and shall submit these for ratification at the next general meeting;
- h. Shall designate a newly created board to belong to an association geographic zone, on an interim basis. With final designation to which geographic zone such board shall belong, to take place at the general meeting, next following the date of creation of such board;
- i. Shall set long-range and short-range objectives for the association;
- j. Shall review and approve long-range plans to guide the association's business and affairs;
- k. Shall evaluate the association's effectiveness in achieving the established objectives;
- l. Shall communicate and support the association's position on issues, policies, and practices to appropriate internal and external publics.

The board of directors shall have the authority to grant honorary life memberships in the Association in accordance with certain provisions.

The board of directors shall delegate to the executive director responsibility for the establishment of fair salaries and reasonable working conditions for staff.

The board of directors is empowered, through bylaw 7, to select, direct, and evaluate the executive director. Direction is provided through the strategic plan, the board of directors' policies, and the executive director's evaluation.

This *Governance Handbook* is organized in accordance with the levels of governance authority. Therefore, the highest level of authority, the *ASBA Act*, is placed first, followed by the bylaws, the foundation statements approved by the membership (vision, mission, mandate, guiding

principles, and vision for public education), the association policies approved by the membership, and finally, the board of directors' governance policies approved by the board of directors. The association foundation statements and policies provide direction relative to the advocacy initiatives to be undertaken on behalf of the association. The board of directors' governance policies provide direction relative to the manner in which the board of directors carries out its roles and responsibilities. In addition, these policies define the role expectations held by the board of directors for the executive director, who is selected, directed and evaluated by the board.

Association members influence ASBA direction in the following ways:

1. **Decisions at general meetings**
As noted above, some decisions can only be made by the membership at general meetings of the ASBA.
2. **Policy decisions**
Each year, each zone may submit three policy proposals to the membership to be considered at the fall general meeting (Zone 2/3: six proposals). Such decisions direct the entire association.
3. **Directives for action**
Boards may submit directives for action through their respective zone or metro director to the ASBA Board of Directors for consideration.
4. **Zone meetings**
Boards may advance policy positions and their interests by garnering support at zone meetings. In addition, zones select a director to represent them on the board of directors and to keep them informed regarding decisions made by the board.
5. **Board chairs meetings**
Boards provide input to the board of directors relative to specific topics.
6. **Accessing services**
As boards access services or express a need for services, they influence the structure and priorities of the association.

To govern is to decide. Decisions regarding ASBA are made by different governing bodies, which make a variety of decisions using different governance tools. The following chart illustrates this reality.

Governing Body	Uses	Tools of Governance
Alberta Government	————→	♦ <i>ASBA Act</i>
ASBA Membership	————→	♦ ASBA bylaws ♦ ASBA policies ♦ ASBA budget ♦ Select president and vice-president
ASBA Board of Directors	————→	♦ Board of directors' policies ♦ Select, direct, and evaluate the executive director ♦ ASBA strategic plan ♦ Board of directors' self-evaluation

GUIDING PRINCIPLES

Guiding principles are high-level directional statements that define the Alberta School Boards Association's values and parameters.

- School boards must have access to equitable long-term stable funding to fulfill the mandate of educating their students. A portion of this funding must come from property taxes.
- Direct access to the local property tax base and the ability to tax are fundamental to school board autonomy, accountability and responsiveness to their communities.

1. acknowledge the school authority's accountability to the electorate and to the Minister
2. be nested in provincial legislation which supports the school authority's will to govern and its authority to achieve results
3. clearly outline the purposes for the accountability
4. be comprehensive and multi-faceted, both in scope and context
5. have clearly defined output measures
6. promote a balanced approach amongst diverse measures
7. include a provincial support system
8. be progressive in its application
9. allow for school authority involvement in the determination of the framework

Accountability Pillar

Accountability Pillar results reporting should provide an accurate representation of what is being assessed.

Alberta Education, in consultation with the Alberta School Boards Association and other stakeholder groups, should review the Accountability Pillar with the intent to address issues.

Association Operations

Public Relations

In order to maintain a high level of public confidence and support of education, the Association shall adopt a positive and constructive public relations posture on educational issues.

The Association's business session will begin at 9:00 a.m. on the first full day of all ASBA general meetings.

Fee For Service Rates

Appropriate fee for service rates will be established as part of the annual budget development and approval process.

Association Partnerships

Alberta School Employee Benefit Plan (ASEBP)

The Alberta School Boards Association (ASBA) takes the following positions with regard to the Alberta School Employee Benefit Plan (ASEBP) Deed of Trust:

1. Membership in ASBA shall be a requirement for boards to be eligible for continued participation in group benefits through ASEBP;
2. ASEBP administration shall operate independently of the ASBA and the Alberta Teachers' Association (ATA) by reporting directly to the ASEBP Insurance Board;
3. The ASEBP Trust shall be solely responsible for any liabilities of the ASEBP plans or operation;
4. The ATA and the ASBA shall refrain from appointing their collective bargaining negotiators to the ASEBP board of directors; and
5.
 - a. Appointment of representatives from ASBA to the ASEBP board of directors shall be for a maximum of two successive three-year terms; and
 - b. Representatives from ASBA to the ASEBP board of directors may serve for more than two, three-year terms provided they are not successive.

Curriculum

Curriculum Development Roles

The ASBA will seek and accept opportunities to consult and advise on curriculum issues with both school boards and the provincial government.

The appropriate role relationship between the province and school boards includes:

- ♦ the province should determine curriculum outcomes and standards and should leave methods of curriculum delivery to local discretion under the general direction of school boards.
- ♦ statements of philosophy and rationale in provincial programs of study should provide context for the outcomes that follow and should avoid being prescriptive regarding methodology.
- ♦ instructional resources authorized by the Minister should be adequately varied in their underlying methodological approaches to support local choices.
- ♦ it is an appropriate role for the province to develop and/or identify teaching resources which provide ideas regarding the implementation and delivery of curriculum, but that the province should clearly communicate that such resources are suggestive only, and are not prescriptive.
- ♦ local boards should retain the right to set locally developed curriculum.

Curriculum Development Process

The curriculum development process should consist of all of the following stages:

- ♦ planning - which focuses on issues such as why the change is needed, what results are anticipated from the change, and what the major structural changes in courses and course sequences will be,
- ♦ development - which focuses on the specific changes required to effect the plan, and specifically includes provision for classroom piloting as a phase of the development process,
- ♦ implementation - which focuses on tasks required of all involved, resource requirements, including in-servicing, and timelines which include provision for one year of optional implementation,

4-2

- ♦ evaluation or impact assessment - which focuses on determining both intended and unintended outcomes of the change.

The ASBA should be provided opportunity, within appropriate timelines, for input to all the stages of any curriculum development or revision, particularly at the planning stage.

**Basic Education Program
– Early Childhood Services**

Early Childhood Services programming should be incorporated into the basic education program.

**Curriculum Content –
Human rights**

The K-12 curriculum should reflect a strong human rights emphasis.

**Curriculum Content –
Canadian history**

Complete and accurate knowledge of the history of Canada is vital to the development of future citizens of our democratic country and, therefore, the history of Canada should receive more significant emphasis and attention in the Alberta Education Program of Studies in the Social Studies curriculum. All students should be fully informed concerning Canada's past and the role played by all peoples who have been part of the growth of our democratic nation.

**Curriculum Content –
Financial literacy**

Financial literacy should be integrated into the Alberta K-12 curriculum.

**Admission to Post-
Secondary Institutions**

Alberta Education, Alberta Advanced Education and post-secondary institutions should collaborate to establish appropriate entrance requirements for students. Such entrance requirements should only require more advanced courses and course sequences when the knowledge content of such courses/course sequences is a prerequisite to the knowledge content of first year courses.

Curriculum Implementation

Courses should be implemented at the school level once Alberta Education has met the following criteria:

- ♦ Collaboration and consultation with educational partners.
- ♦ A pilot has been conducted to identify needed resource materials, staff in-service requirements, new course impact on existing program offerings, impact on existing courses (e.g. math impacting chemistry and physics), new course impact on prior grade levels, impact for high school diploma requirements, and implications to prerequisite standings for post-secondary entrance.
- ♦ Teachers have been in-serviced to ensure high levels of student performance and quality teaching.
- ♦ Textbooks and resource materials are available at least one semester prior to mandated course implementation dates.

Senior High Course Sequences

Alternative course sequences that meet the learning needs of students with different learning levels should be available in all core subjects at the senior high school level.

Alberta Education should empower boards to set local policy regarding marks and other conditions required for entry to various senior high school core course sequences.

Disposition of Reports

The ASBA has taken the noted positions in regard to the following reports:

Learning Commission Report	<p>The <i>Learning Commission Report</i>¹, when taken as a whole, is good for Alberta students.</p> <p>The ASBA president and designates shall participate fully in any discussion and development of implementation plans for all of the areas addressed in the report, reflecting the views of the membership.</p> <p>Any final implementation plans be subject to ratification by the ASBA membership.</p>
Metro School Boards Study	The recommendations contained in the <i>Metro School Boards Study Report</i> ² should be implemented.
Small Urban Boards Study	The recommendations contained in the <i>Small Urban Boards Study Report</i> ² be implemented.
Program Standards for Nutritional Programs	The ASBA endorses the <i>Best Practices Program Standards</i> ¹ as a model for child nutrition programs in schools.
A Vision for Public Education	The ASBA supports <i>A Vision for Public Education</i> ³ as approved by the membership at the 2001 SGM.
Student Assessment Practices	The principles outlined in the document, <i>Principles for Fair Student Assessment Practices for Education in Canada (1993)</i> ¹ are valid and provide a good basis for making judgments about student assessment practices at the classroom, school, school authority and provincial levels. Education Finance

Adequacy, Stability and Predictability

Adequate, stable, predictable funding should be provided to meet the needs of public school students in ECS to grade 12.

Alberta Education, in consultation with the Alberta School Boards Association, should determine the adequacy of the base instruction grant for grades K - 12 and establish a basic level of education programming and adequate funding to support such programming for all students served by the public education system.

Funding for up to full-time pre-kindergarten and kindergarten for those children who by assessment are identified as at risk of not achieving to the level of their potential should be included in the base instructional grant.

Funding

Targeted Funding

Targeted operational funding should be minimized.

Continued but increased targeted funding is supported for:

- ♦ Alberta Initiative for School Improvement (AISI) funding.
- ♦ The Class-Size Initiative (CSI) funding including upward adjustment to address annual enrollment increases for growing school divisions.

Base Funding

There are a number of areas where financial support for programs is deemed by Alberta Education to be covered under base funding which includes the per-pupil allocation at the elementary level and the CEUs earned at the high school level. Some of the areas which are deemed by Alberta Education to be supported by base funding include technology, mild and moderate special education funding, enhanced counselling services, programs designed to reduce substance abuse by students including the Drug Abuse Resistance Education (DARE) program, school library funding, early intervention initiatives, second language education and school liaison officers.

In regard to technology funding, the ASBA position is that technology funding which reflects the actual costs of technology should be determined in consultation with school districts, and should be announced in a timely manner.

6-2

In addition, funding for high-speed connectivity of the Alberta SuperNet should be increased to cover service costs for 100/20 Mbps connection speeds at all educational sites.

Funding for learning technologies should be based on current total cost of ownership and the appropriate networking infrastructure and technical support should be provided on a five-year lifecycle replacement schedule.

Funding for Differential Factors

In addition to base funding, the department provides, through the funding allocation formula, funds additional to the base funding. Some of these allocations are targeted and therefore must be spent on the identified area. Other of these allocations are not targeted, which means Alberta Education provides the funding for identified programs or initiatives such as small schools by necessity, CTS, and leaves the Board flexibility as to how the total funds are expended.

Funds which are not considered part of base and are not targeted are referred to as additional funding for differential factors by Alberta Education. ASBA positions in regard to funding which is not targeted nor part of the base are as follows:

- ♦ Enhanced funding for small schools by necessity should be provided so small high schools can provide students with access to at least a minimum acceptable program and which allows graduates to attend any post-secondary institution in Alberta.
- ♦ Outreach funding should recognize operating costs and market rates should be increased.
- ♦ Grades 1-12 severe special needs category to allow for funding decision of student programs that are consistent with program unit funds that are available to ECS students.

Special Education Funding

Funding provided to boards for supporting students with special needs should be studied to determine if it is sufficient to provide the programming level required by the Standards document June 2004.

6-3

Integrated Services Funding

The Government of Alberta should eliminate full funding of designated special education private schools and should fund such schools at a level no greater than that currently provided to other private schools (i.e. 70% of instructional funding).

All medical and social services required to support students in the school setting should be totally funded by the appropriate government agencies and not from funds allocated to school boards for educational purposes.

The provincial government departments of Alberta Health and Wellness, Alberta Children's Services, and Alberta Education should determine and clarify in policy, for all health authorities and school divisions, which ministry is responsible for funding rehabilitation services for all children and students.

The province should, in consultation with the Alberta School Boards Association, provide the mechanisms and sufficient funding as well as interdepartmental commitments to ensure integrated service delivery for children to support their educational needs. These mechanisms must ensure clear authority and accountability and effective, responsive service to children's needs.

Funding for children's services should be adequate to provide essential programs which are based on the coordination of services to children at the school level. Such funding should be secure and long-term and support prevention and early intervention programs.

Federal Education Funding

Funding for First Nations severe disabilities students who are attending provincial schools should not be less than the funding levels provided for other non-First Nations students.

A federal / provincial agreement should be concluded to better accommodate the education of First Nations students, living "on reserve", who choose to attend provincial schools and to ensure the timely transfer of payment for the provision of such educational services to provincially funded school boards.

Appropriate federal government funding for French Language programs should be provided.

6-4

Timely Funding Announcements	Alberta Education should release by March 1 its Funding Manual for the next school year to ensure school boards can effectively plan and deploy resources to schools and central service departments.	5
Property Taxation	School boards should have access to some measure of taxing authority.	
Goods and Services Tax (GST)	“Goods and Services Tax” (GST) should be eliminated on all purchases made by school boards.	

Facilities

Funding Model

The provincial government should provide funding for capital projects based upon a funding model which gives school boards annual, sustained funding for capital projects required to meet the needs of a growing and/or changing population as well as aging education infrastructure.

The Government of Alberta should enable school boards to access an amount of the local education tax equivalent to 2% of the replacement value of its facilities for the purpose of the preservation and maintenance of current facilities.

Capacity and Resourcing

The provincial government should provide increased capital funding.

Adequate funding for new and replacement schools, modernization and other capital projects should be provided in order to eliminate the infrastructure deficit affecting all school boards.

In Edmonton and Calgary, there are large subdivisions which do not have a school. The provincial government should provide sufficient funding to metro boards and other rapidly growing jurisdictions for the infrastructure needs of new communities and the educational, social, economic, recreational, and cultural value of having new schools in the developing areas should be recognized and financially supported.

The provincial government should increase funding rates for new school construction that address inflation and reflect current market conditions.

ICT Infrastructure Funding

The provincial government should provide the required financial support to provide the necessary infrastructure to support Information and Communications Technology. In particular, funding support is required to meet the code requirements of the new Occupational Health and Safety Act Regulations and Code legislation.

Facility Costs of Implementing Provincial Initiatives

The provincial government should recognize the facility costs associated with implementing provincial initiatives such as Small Class Size in determining school capacity, utilization of school space, and the capital needs of boards.

7-2

Funding for Outreach School Lease Costs

The provincial government should reimburse school boards for the lease costs of securing a stand-alone facility for the offering of outreach programs, or provide capital funds for such facilities.

Reviews/Studies

Review of Ontario Program to Support Community Use of Schools

The provincial government should undertake a review of an Ontario program which provides dedicated funding to school boards for the purpose of increasing and enhancing after hours community use of schools. The review should also include an assessment of the feasibility of implementing this program in Alberta.

Public-Public and Private-Public Partnerships

The provincial government should establish a task force to study the potential for partnerships involving public-public and private-public and the merits and disadvantages of such arrangements.

Area, Capacity & Utilization Guidelines Review

The provincial government should review the current Area, Capacity and Utilization Guidelines and revise the Area, Capacity and Utilization formula incorporating the following.

1. The utilization formula should be changed so that the rated capacity of the school reflects its actual capacity to deliver necessary programming to students in classrooms which meet acceptable standards for the curriculum delivery.
2. Classroom spaces should only be included in the formula when determining a school's capacity.
3. Space donated by community partners should be specifically excluded from capacity unless the space can be demonstrated to be used for effective program delivery in the same manner and extent as the other classrooms in the school.
4. Donated space should be fully eligible for Operations and Maintenance funding once the overall design of the school is approved.
5. Donated space previously approved should be fully eligible for Operations and Maintenance funding and that there be no retroactive exclusions.
6. Provincial class size guidelines should be used in determining maximum school capacity.

7-3

Funding for Plant Operations and Maintenance	Plant operations and maintenance funding should be sufficient to ensure that the real costs of utilities, telecommunications, maintenance, custodial services, insurance, and facility planning and administration are met.
Scheduled Replacement of Portables	Portable and relocatable classrooms should be replaced on a scheduled basis based upon life expectancy.
Infrastructure Preservation Funding	The provincial government should provide preservation funding to school boards that is equivalent to the industry standard of two percent per year of school facility replacement costs and that this amount be above and beyond funding for major modernizations.
Block Funding for School Modernization	The provincial government should reinstate Block Modernization Program funding.
Non-Instructional Facilities	<p>Current capital block funding should be expanded to cover the costs of current debt, both principal and interest, owing on non-instructional facilities and;</p> <p>The provincial government should fund the construction of non-instructional facilities - be it new construction, additions or modernization -following agreed-upon criteria similar to that established for instructional space.</p>
School Playgrounds Funding Support	<p>Provincial funding should be provided for the inclusion of school community playgrounds as part of school facilities, firstly by a one-time infusion of funds to address current playground conditions.</p> <p>In the case of new school construction, additional provincial funding for a playground and playing fields should be included as part of the capital project costs of the new facility.</p> <p>In the case of modernizations, where the construction process results in playground equipment being removed, additional provincial funding to relocate or replace that equipment should be provided as part of the capital project costs.</p> <p>In the case of school reconfigurations, provincial funding should be provided for new playgrounds if none are in existence at the facility students are being moved to, or to add to or replace existing equipment so that the equipment is appropriate for the grade levels of students attending the reconfigured school.</p>

7-4

Furthermore, provincial funding for the maintenance and replacement of playgrounds should be included through the Infrastructure Maintenance Renewal (IMR) program.

Small Schools by Necessity

In some circumstances school closures are necessary, however where this is not feasible, special small schools by necessity funding should be provided.

Since such rural schools, strategically located in their communities, are an important component of the social infrastructure that is necessary to achieve economic diversification; spur growth in Alberta's agriculture industry; and improve the quality of life in rural Alberta.

The provincial government should exclude small schools by necessity operated by boards from calculations used to determine school system utilization.

School Consolidation Processes

The Alberta School Boards Association shall endeavour to facilitate the school consolidation process by collaborating with the provincial government and other education stakeholder groups to encourage the provincial government to:

- ♦ Respect school closure procedures initiated by school boards based on school viability studies conducted in school jurisdictions;
- ♦ Develop, in conjunction with the definition of Small Schools by Necessity, guidelines for supporting small schools as viable entities, and
- ♦ Encourage MLAs to provide political support for school board decisions to consolidate schools.

Funding for Right-Sizing

The provincial government should provide capital funding to school boards for the purpose of right-sizing school facilities where student enrolments and building conditions warrant and building design permits.

7-5

Site Preparation and Servicing Costs

School boards should be protected by legislation from the downloading of site servicing costs by municipalities. Site servicing costs for schools such as roadways, school parking sites, drop off facilities and playgrounds should be determined and submitted in addition to capital funding for school buildings. Any further negotiation with respect to these costs should be exclusively between the municipality and the provincial government and should not delay school capital projects (could be done on a cost recovery basis). School boards could then support municipalities in their recovery of site servicing costs.

The provincial government should address increased operating costs incurred by school boards resulting from municipalities shifting the funding of municipal and corporate services from the property tax base to user-based utility charges and service fees. The province needs to provide additional Plant Operation and Maintenance funding to offset the new operating costs being incurred by school boards for all municipal and corporate utility charges and service fees.

Approval Process for School Construction

The approval process for school construction, specifically the contractor prequalification process and the low bid requirement, should be reviewed to ensure the successful and timely completion of school construction contracts.

Infrastructure Plan

The Alberta government should immediately create, communicate, and implement a plan that will meet the very real school facility needs of school districts to the satisfaction of community-elected school board trustees, and, further, to include this implementation in the government's budget process. The Alberta government should ensure there are sufficient and appropriate classroom spaces in all school districts, a responsibility held by the Alberta government towards students, parents and communities.

8-1

Implementation of Provincial Initiatives

Provincial Initiatives

Given the huge financial and human investment involved in managing change and implementing new initiatives, Alberta Education should establish a consultative process that assesses, monitors and minimizes the workload and cost to school boards.

Integrated Services

Integrated Service Delivery Model	The provincial government should, in consultation with the Alberta School Boards Association, provide the mechanisms and interdepartmental commitments to ensure integrated service delivery for children to support their educational needs. These mechanisms must ensure clear authority and accountability and effective, responsive service to children's needs.
Coordination of Services	<p>The Alberta School Boards Association is committed to the coordination of services for children at all levels of governance.</p> <p>School boards should collaborate with their Regional Children and Family Service Authorities in the implementation of the coordination of services to children at the school level.</p> <p>The Government of Alberta should assume leadership for this process by:</p> <ul style="list-style-type: none"> ♦ Establishing exemplary working relationships among government departments. ♦ Providing adequate funding for all the children's services necessary. ♦ Work in cooperation with school boards to assist all children in achieving their potential.
Information Sharing Protocols	The Ministry of Education should maintain joint protocols with other ministries to ensure appropriate information sharing occurs in an expeditious manner when formal risk and threat assessment processes are initiated to address student safety.
School Support Therapists	Speech language pathologists, occupational therapists, mental health therapists, and physiotherapists should be available and accessible to our school systems to support learning so that Alberta's children can receive the best possible education and advocates that the appropriate Ministers make training and accreditation of such specialties a high government priority.
Universal Assessment by Age 30 Months	The Government of Alberta and its appropriate ministries should conduct universal assessment of children, by age 30 months, to identify children who are at risk of not achieving to the level of their potential.

Legislative Changes

**Oil and Gas Development:
Buffer Zones Around
Schools**

The Alberta School Boards Association supports the enactment of legislation to require buffer zones around any school where oil and gas activity presents a danger to students and employees.

**Employment Standards
Code Provisions –
Students Aged 12-14 Years**

The Alberta School Boards Association does not support those provisions in the Alberta Employment Standards Code that permit adolescent students, aged 12 to 14 inclusive, to work in adult environments, thereby negatively impacting their moral, social, emotional, and educational development.

Bill 206

The Alberta School Boards Association does not support proposed amendments to the School Act as detailed in Bill 206 “School (Enhanced Protections of Students and Teachers) Amendment Act”.

Personnel and Employee Relations

Superintendent of Schools /CEO Selection

Superintendents of Schools should continue to be hired by their local boards.

The requirement that the Minister of Education approve the appointment or renewal of contract of the Superintendent should be discontinued.

Education Profession

Membership in the Education Profession should include all those whose employment requires them to hold a valid teaching certificate and those who qualify for and choose to maintain membership.

The Education Profession should include the activities of all educators who practice in the field of education.

The public and student interest, rather than the interest of the Education Profession, should be served first and foremost in the determination of educational matters.

This interest would be served by:

- ♦ setting of standards and requirements for academic preparation programs leading to entry into the profession;
- ♦ discriminating selection of those admitted to academic preparation programs with such selection intended to supply the qualified practitioners required;
- ♦ setting of certification requirements for beginning practitioners;
- ♦ registration of all persons eligible to practice;
- ♦ requiring continuous professional development of practitioners in service;
- ♦ implementing periodic review of practice to maintain continuing certification; and
- ♦ ensuring discipline and decertification procedures for practitioners.

The employers of those in the Education Profession should have the authority to establish policy governing employee performance. School boards should have all the same corrective disciplinary measures available to them to use with teachers as they have available to use with other employees that are covered by the Alberta Labour Relations Code.

11-2

The Education Profession should:

- ♦ Provide for a clear means of protecting the public from those persons not qualified to engage in the field of educational practice.
- ♦ Establish a Code of Ethics that will address the public and student interests, protect the interests of the client, and be approved by the Lieutenant Governor in Council.
- ♦ Ensure that both practitioners and non-practitioners have the same rights in regard to laying complaints against practitioners.
- ♦ Provide for a full appeal procedure in all discipline and de-certification matters.

Teacher Preparation

Faculties of Education should include in the educational administration course for teachers a required unit relating to the role and responsibility of trustees and how they fulfill this role.

Career Counseling Certification Requirements

School boards should continue to have flexibility in staffing the career counseling component of guidance and counseling services with qualified individuals who may not have teacher certification credentials.

Teacher Bargaining

The Alberta School Boards Association believes that collective bargaining is the most practical means of determining the remuneration of employees, but that collective agreements should be restricted to matters of salaries, special allowances, sick leave, and other benefits specifically required by law.

Administrative procedures pertaining to role specifications of supervisory personnel, provision of stenographic and clerical services, classroom load, the provision of classroom facilities, etc., should be divorced from collective agreements and established through board policies arrived at through the co-operation of board, administration, and teaching staff.

School boards should be able to engage in regional bargaining with the Alberta Teachers' Association where groups of individual boards determine it is in the public interest to do so.

A legislated, centralized, school board controlled teacher bargaining model should be established.

The ASBA shall use the following “Key Elements” and attached detailed model to implement the Employer Bargaining Association:

1. The employer bargaining association will:
 - (a) have its own governance structure, as outlined in 2 and 3 below
 - (b) focus exclusively on teacher bargaining and collective agreement administration
 - (c) utilize existing and contracted ASBA resources
 - (d) levy fees separate from the ASBA.
2. The bargaining association will be governed by a representative assembly comprised of one trustee representative appointed by each school board. The representative assembly will:
 - (a) establish the bargaining association’s initial constitution and bylaws using the double majority voting principles outlined in 2(d) below
 - (b) elect from among its members, on the basis of one board/one vote, a chair who shall also serve as chair of the council
 - (c) provide direction to the employer bargaining council regarding a bargaining mandate
 - (d) ratify any collective agreement using a system of one board/one vote and requiring a double majority such that 2/3 of the boards must be in support and the boards supporting the proposed agreement must collectively educate 2/3 of the students in Alberta.
3. An employer bargaining council (“the council”) shall be established from among the members of the representative assembly on the following basis:
 - (a) the representative assembly members from each ASBA zone, excepting the metro boards, will elect one representative to the council on the basis of one board /one vote
 - (b) each of the metro board’s appointees to the representative assembly will automatically serve on the council

11-4

(c) the council will:

- ♦ develop a bargaining mandate
- ♦ oversee negotiations
- ♦ determine if, and when, a draft collective agreement shall be brought forward to the representative assembly for ratification.

The Government of Alberta should introduce legislation that will:

1. As recommended by the Alberta Commission on Learning, establish a centralized and school board controlled employer bargaining association for the purpose of collective bargaining with teachers. This association will hold the bargaining certificate for all school boards. Membership in this association will be mandatory for all publicly elected school boards.
2. As recommended by the Alberta Commission on Learning, expressly exclude from teacher collective agreements and that implementation of this policy be subject to this legislation:
 - (a) pupil/teacher ratios
 - (b) hours of instruction
 - (c) class size.
3. Provide that all existing collective agreements will continue to be in effect until their duly negotiated expiration date. The single collective agreement provisions between the Employer Bargaining Association and the Alberta Teachers' Association would come into effect upon the expiration of these collective agreements. Legislation would further provide that the conclusion of new collective agreements be embargoed. If the parties are unable to reach a single collective agreement, binding arbitration will be used to conclude an agreement.

Mediation

Where the parties to a labour dispute jointly request a particular mediator, such mediator should be appointed, and mediators appointed under the Labour Relations Code should make recommendations for settlement only after due deliberation and after taking the wishes of the parties into account.

Supervision of School Extra-Curricular Activities

The School Act should be clarified to indicate that all appropriately qualified staff, regardless of whether they hold a teaching certificate, be allowed to supervise extra-curricular activities.

11-5

Educational Assistants	The appropriate government ministries should make the training of educational assistants a high government priority.
Standards of Competency for Bus Drivers	The Province of Alberta should establish province-wide tests and standards of competency for bus drivers.

Programs

Alternative Programs

The Alberta School Boards Association encourages member boards to take steps, where feasible, to accommodate the diversity of needs and interests of students and parents through alternative programs within public education.

The Alberta School Boards Association encourages member boards to communicate their offerings of alternative programs, emphasizing the accountability provided when choice programs are offered within the governance structure of locally elected boards.

Program Enhancement

The Alberta School Boards Association shall collaborate with education stakeholders and Alberta Education on ways to improve methodologies for delivering programs to students in rural schools.

Career and Technology Studies (CTS)

A replacement process should be approved by the Minister of Education to replace Career and Technology Studies (CTS) Credit Enrolment Units (CEU) audits and the resultant negative adjustment to CTS program funding.

To this end, Alberta School Boards Association supports a multi-partner task force which would review monitoring processes and bring a recommendation to the Minister that aligns with the principles of the Accountability Pillars Framework.

Support for ELL Students

The provincial government should support English Language Learner (ELL) students adequately, ensuring that the extensive needs of ELL students, including foreign born students, are supported. Additionally, the provincial government, in consultation with the Alberta School Boards Association, should work towards maximizing services and supports including engaging relevant public sector stakeholders in order to optimize supports to ELL populations.

Alberta Initiative for School Improvement (AISI)

The Alberta School Boards Association reaffirms its support of the Alberta Initiative for School Improvement (AISI).

12-2

Kindergarten

Investment in early education is crucial to students reaching their full potential. The Alberta School Boards Association urges the province to mandate fully-funded half-time kindergarten programs to equalize their opportunity to reach their full potential.

Further, Alberta School Boards Association urges the province to make available fully-funded full-time kindergarten programming for children at-risk to equalize their opportunity to reach their full potential.

Provincial Committee Representation

Provincial Committees

The Alberta School Boards Association should have equitable representation on all provincial committees which have under discussion matters affecting the administration and operation of Alberta schools.

School Councils

School Councils

School councils are a valuable resource and should serve in an advisory capacity to the principal and to the school board and forge complementary and productive relationships with school boards to meet the needs of all students.

15-1

Schools Outside Electoral Jurisdiction

Schools Outside Electoral Jurisdiction

The Minister of Education should clarify the legislature's intention to either permit or prohibit the operation of schools, including virtual schools and non-resident home education school programs, outside of the district's electoral jurisdiction.

Student Assessment

Student Assessment Practices

The principles outlined in the document, *Principles for Fair Student Assessment Practices for Education in Canada (1993)*¹ are valid and provide a good basis for making judgments about student assessment practices at the classroom, school, school authority and provincial levels. (Also under “Disposition of Reports” on p. 5-1.)

Learner Assessment

Provincial learner assessment programs should directly assess the learner outcomes in curriculum that learners have had opportunity to learn within reasonable time proximity to the administration of the assessment.

Schools should be given the opportunity to have students write the Provincial Achievement Tests in the year they take the curriculum tested.

Students taking programs that have learner outcomes different from those in the regular curriculum, e.g., the Integrated Occupational Program, should be assessed on outcomes in whatever special program they are taking.

Provincial Achievement Tests (PATs)

Provincial Achievement Tests (PATs) should be designed and administered in core subject areas at a few key points in the continuum of K-12 programs for the purpose of enabling schools, school authorities, and the province to determine overall success of students in achieving the outcomes of the provincial curriculum.

Classroom teachers should be extensively involved in the design, administration and marking of PATs.

PATs should be administered to all students taking regular programs, including students taking home schooling and/or virtual education programs and students enrolled in private schools and charter schools.

Ranking of teachers, schools, or school systems on the basis of PAT scores is not acceptable.

There should be recognition that PATs cannot assess all important learner outcomes of the curriculum.

To the degree possible, the standards on PATs should be consistent from year to year.

Provincial Achievement Tests administrations should be compatible with cycled courses.

16-2

Provincial Diploma Exams

A significant portion of students' grades in subjects required for high school leaving credentials (diplomas), for scholarships, or for entry to post-secondary institutions should be comprised of common provincial examinations.

Provincial diploma exams serve a useful accountability function, but that ranking of teachers, schools or school systems on the basis of exam scores is not acceptable.

There should be recognition that such exams cannot assess all important outcomes of the curriculum, and that at the individual student level, school-based marks and diploma exam marks may legitimately vary.

Decisions regarding diplomas, scholarships and post-secondary entry should take into account school awarded marks as well as marks on the provincial exams.

To the degree possible, the standards on provincial exams should be consistent from administration to administration and from year to year.

To the degree possible, examination administration timetables should support maximum flexibility in school and student timetables, especially as students increasingly engage in independent learning through technological and other means.

Given the high stakes nature of diploma exams for entry to post-secondary programs, Alberta Education should undertake periodic research to determine the degree to which exam scores are good predictors of subsequent success in post-secondary programs.

The design of provincial diploma examinations should provide for a balance of multiple choice and open-ended questions in all subject areas tested. Examinations of the same subject should be written on the same day.

Diploma exams should not unduly erode instructional time.

Alberta Education should provide increased flexibility in scheduling of the writing of diploma exams to allow, at minimum, exams to be written in December and May, in addition to the current schedules.

**Accommodations for
Students Writing
Provincial Exams**

The Alberta School Boards Association supports the use of authorized assistive technology, including approved text to speech software programs and assistance of a reader and/or CD version and/or scribe, as accommodation for students when they write achievement tests and diploma exams.

**Scheduling and Delivery
of Provincial Standardized
Testing**

The scheduling and delivery of provincial standardized testing (i.e. provincial achievement tests and diploma exams) should provide flexibility to the greatest extent possible to accommodate twenty-first century learners.

**Assessment and Measures
of Student Success re: 21st
Century Learner**

The provincial government, in consultation with relevant stakeholders, should develop assessment and measures of student success consistent with the competencies of the 21st century learner. Further, the ASBA supports Alberta Education and Advanced Education in developing consistent assessment measures and taking collaborative action toward understanding and fulfilling this mandate.

**National and International
Testing**

Alberta should participate in programs of national and international testing to ascertain how well Alberta students are demonstrating attainment of common outcomes in relationship to students in other jurisdictions.

Such testing should be limited to a few core areas and a few age levels, and should restrict sample numbers to those necessary to draw comparisons at provincial or national levels.

Such testing must respect, to a substantial degree, the students' opportunity to learn the outcomes being tested.

Reporting of the results of such tests must take into account the sampling practices of other participating jurisdictions.

Students

Optimal Learning Environments

The Alberta School Boards Association believes optimal learning occurs in welcoming, caring, respectful, safe and healthy learning environments that respect diversity, foster a sense of belonging, and promote student wellbeing. Each student has the right to learn in inclusive environments where equality of opportunity, dignity, and respect are promoted.

Transition to Post Secondary Education

Post-secondary institutions should determine entry requirements for specific programs based on the learning outcomes needed for the courses in those specific programs.

Student Conduct

The Province of Alberta should increase resources for law enforcement, specific to illicit drugs and related activities.

Health and Learning in Schools

The Government of Alberta should establish a high profile task force on health and learning in schools, with broad participation from groups involved in health and learning and with a mandate to develop a model policy for a comprehensive approach to health and learning in schools and school systems.

Oil and Gas Development: Buffer Zones Around Schools

The Alberta School Boards Association supports the enactment of legislation to require buffer zones around any school where oil and gas activity presents a danger to students and employees.

Employment Standards Code Provisions – Students Aged 12-14 Years

The Alberta School Boards Association does not support those provisions in the Alberta Employment Standards Code that permit adolescent students, aged 12 to 14 inclusive, to work in adult environments, thereby negatively impacting their moral, social, emotional, and educational development.

17-2

Pedestrian Student Safety

A collaborative approach among all levels of government should be employed to deal with the reality of increased traffic flow on highways in Alberta as it impacts the safety of pedestrian students crossing major highways.

The Minister of Infrastructure and Transportation to change School Speed Zone hours on all provincial highways to 7:30 a.m. to 4:30 p.m. on school days.

The Alberta urban Municipalities Association (AUMA) and Alberta Association of Municipal Districts and Counties (AAMDC) should urge their members to implement these school speed zone hours on all roads within their jurisdiction.

Transportation

Transportation Funding

All school boards should be fairly and equitably funded for student transportation.

The provincial government should undertake a comprehensive independent review of the student transportation system to ensure that all boards are fairly and equitably funded for student transportation.

Transportation grants should be indexed to the price of fuel.

Transportation funding for all students in grades 4-6 should be provided at the same rate as for grades 7-12 students in order to provide for acceptable levels of safety.

Rural Transportation Funding

Students in small rural schools should be able to access specialized programs in neighbouring schools without being restricted to courses requiring special facilities or equipment.

Funding should not be reduced for jurisdictions with declining numbers of students transported but who have fixed transportation costs.

Walk Limit (K-6)

The minimum distance limit for transportation funding for K-6 students should be reduced to 1.6 km (1 mile) from the designated school.

Transportation Safety

The provincial government should return to the use of front license plates on vehicles to assist in the identification and prosecution of offenders who pass school buses while loading or unloading.

Trusteeship

The following two policy statements will be re-inserted into the *ASBA Governance Handbook* when an appropriate category has been determined.

- | | |
|---|---|
| Length of Term for School Board Trustees | School board trustees in Alberta should be elected for four-year terms. |
| Timing of School Board Trustee Elections | The timing of school board trustee elections should coincide with municipal elections. Further, in determining when elections are to be held, consideration should be given to timing needs of school boards relative to the school year. |

Preface

These Board of Directors' Governance Policies have been developed to highlight and support the very important governance function of the Board of Directors. In addition to clearly defining the role of the Board, the role of the Executive Director and the delegation of authority from the Board to the Executive Director, the Board of Directors has chosen to include the following as policies:

1. Additional commentary on the foundational statements which provide guidance and direction for all activities within the organization;
2. Directions for how the Board itself is to function and how individual Directors are to conduct themselves; how Board committees and representatives are to function;
3. Non-delegable matters such as policy-making; and
4. Specific matters which the Board of Directors has chosen not to delegate to the Executive Director.

These Board Governance Policies are intended to be supplemented by administrative procedures; the primary written mechanism by which the Executive Director directs staff. Administrative procedures must be entirely consistent with governance policies.

The development of two separate and distinct documents is meant to reinforce the distinction in this organization between the Board's responsibility to govern and the Executive Director's executive or administrative duties.

It is to be noted that the electronic version of these Board Governance Policies is always the most current document available.

BOARD OF DIRECTORS' CHARTER

Purpose of Charter

The role of the Board of Directors is defined by the ASBA Act, the Bylaws and Board Governance Policy 2. Through the establishment of a Charter, the Board has chosen to further articulate the principles it will use to work together in fulfillment of its role.

Principle: Transparency	
Beliefs	Practices
<p>Transparency builds credibility within the membership and with stakeholders.</p> <p>Timely communication enhances transparency.</p> <p>The ASBA membership is entitled to know everything the Board does with the exception of confidential matters related to legal, labour, land or ASBA personnel matters.</p>	<p>Anticipate the informational needs of all stakeholders.</p> <p>Proactively share appropriate information:</p> <ul style="list-style-type: none">♦ Agendas and minutes, which indicate key points of discussion, will be posted on the website.♦ The use of Board Chairs' emails as an effective means of keeping the membership informed will be continued.♦ Improved methods of information dissemination will be contemplated. <p>Respectful dialogue will be encouraged. Questions from stakeholders and member attendance at Board meetings will be welcomed and respected.</p> <p>Board members shall be approachable, straightforward and responsive.</p>

Principle: Commitments & Obligations	
Beliefs	Practices
<p>Directors bring multiple commitments and diverse perspectives to the decision making process.</p> <p>The obligation to express membership views does not diminish or interfere with a Director's obligations to support the needs of the ASBA (the obligations are not mutually exclusive).</p>	<p>Active support of the Board by all Directors:</p> <ul style="list-style-type: none"> ♦ If a Director supports the decision, he/she is to be conscious of the need to express his/her support and become a 'champion' of the cause. Multiple voices always have a significant influencing impact. ♦ Directors will identify and use key messages to support each decision. ♦ If a Director is opposed to the decision of the Board he/she may: <ul style="list-style-type: none"> ◊ Say nothing. ◊ Speak in support of the process (that debate was extensive; that dissenting positions were expressed; that the Board as a whole attempted to achieve the best outcome).

Principle: Inclusiveness	
Beliefs	Practices
<p>An important element of inclusiveness is respecting diverse views and opinions.</p> <p>All Directors are to be encouraged to express alternative perspectives on relevant matters.</p> <p>With the exception of the President, no one Director or group of Directors is to be provided with preferential access to information (not withstanding privileged information related to other organizations).</p>	<p>Opportunities for diverse views to be expressed and debated must be created. This will lead to higher levels of 'ownership' in, and support of, Board positions.</p> <p>Encourage the active involvement of all Board members in discussions and decisions:</p> <ul style="list-style-type: none"> ♦ Consciously ask everyone for input. ♦ Demonstrate patience with/appreciation for alternative perspectives. ♦ Provide opportunities for informal discussion on topics among Directors. <p>Support the orientation of new Directors:</p> <ul style="list-style-type: none"> ♦ Ensure that new Board members participate in a comprehensive orientation to the ASBA Board. ♦ Create opportunities for informal mentoring between experienced and new Board members.

23-6

Principle: Unity and Solidarity	
Beliefs	Practices
<p>'Speaking with one voice'.</p> <p>Unity and solidarity as a Board is essential for the well-being and effectiveness of the organization.</p>	<p>There must be individual and collective commitment to a process that fosters candid discussions leading to consensus decisions whenever possible.</p> <p>Directors need to communicate Board decisions.</p> <p>The President, or anyone appointed by the Board to speak on its behalf, needs to be actively supported by the Directors when expressing the Board's position.</p>

Principle: Accountability	
Beliefs	Practices
<p>We are accountable to the corporate Board and to our fellow Directors.</p>	<p>Demonstrate a willingness to prepare for, and participate and be fully engaged in meetings.</p> <p>Maintain respect for diversity through flexibility in our deliberations.</p> <p>Be diligent in monitoring our performance as a Board as well as the performance of the CEO.</p> <p>Respect the need for confidentiality.</p>

Governance Policy 3

ROLE OF THE DIRECTOR

The role of the Board of Directors member is to contribute to the Board of Directors as it carries out its mandate in order to achieve its mission and goals. The oath of office taken or affirmation made by each Board of Directors member when s/he assumes office binds that person to work diligently and faithfully in the cause of the Association.

The Board of Directors is a corporation. The decisions of the Board in a properly constituted meeting are those of the corporation. Individual Directors exercise an effective decision making role in the context of corporate action. The individual Director has no authority outside of the Board of Directors meeting unless specific authority has been granted by the Board of Directors during a duly constituted meeting of the Board.

Specific Responsibilities of Individual Directors

1. Take and uphold the Oath of Office, which states:
 I (*name*), do solemnly swear that I will promote excellence in public education and that I will uphold the trust that the public, separate, and francophone school boards of Alberta have placed in me to faithfully guide the Alberta School Boards Association in the achievement of its goals.
2. Become familiar with Association policy and Board of Directors governance policy, meeting agendas and reports in order to participate in Board meeting business.

 - 6.2 In odd-numbered years Directors from Edmonton Catholic, Calgary Public, Zone 1, Zone 2/3 (1) and Zone 5 will attend.

23. Become familiar with, and adhere to, the Director Code of Conduct.
24. Report any violation of the Director Code of Conduct to the President.

Orientation

As a result of elections, the Board of Directors will experience changes in membership. To ensure continuity and facilitate smooth transition from one Board to the next following an election, Directors must be adequately briefed concerning existing Board of Directors policy and practice, strategic directions and initiatives.

The Board of Directors believes an orientation program is necessary for effective directorship. All incoming Directors and alternates are expected to attend all aspects of the orientation program.

1. The Executive Director will provide an orientation program for all newly elected Directors that provides information on:
 - 1.1 ASBA Governance Handbook (Association bylaws, Association policies, Board of Directors governance policies);

DIRECTOR CODE OF CONDUCT

The Board of Directors commits itself and its members to conduct which meets the highest ethical standards. It is expected that all personal interactions and relationships will be characterized by mutual respect, which acknowledges the dignity and affirms the worth of each person.

Specifically

Directors, including the President and Vice-President are to:

1. Devote time, thought and study to the duties of Director so that they may render effective and credible service.
2. Endeavour to work with fellow Directors in a spirit of harmony and cooperation in spite of differences of opinion that may arise during debate. Avoid rancor and bitterness; observe proper decorum and behaviour; encourage full and open discussions in all matters with fellow Directors; treat each other with respect and consideration; limit ancillary (sidebar) discussions during meetings; and not withhold or conceal any information or matter with which other Directors would be concerned.
3. Ensure the use of electronic devices is limited to the greatest extent possible.
4. Abide by the speakers list as determined by the President.
5. Base personal decisions upon all available facts in each situation; vote their honest conviction in every case, unswayed by partisan bias of any kind and in the best interest of all students in Alberta; and thereafter abide by and uphold the final majority decision of the Board of Directors.
6. Not discuss the confidential business of the Board of Directors outside of a Board meeting or a Committee meeting thereof.
7. Represent unconflicted loyalty to the interests of the Board of Directors and the Association. This accountability supersedes any conflicting loyalty such as that to advocacy or interest groups and membership on other Boards or staffs. It also supersedes the personal interest of any Director acting as a consumer of the Association's services.
8. Avoid conflict of interest with respect to their fiduciary responsibility.

25-2

9. Disclose the general nature of any pecuniary interest as soon as the Director is aware that it exists, and have the Board of Directors determine, in view of the disclosure, whether or not the Director should abstain from discussing the matter, and abstain from voting on any question relating to the matter.
10. Consequences for the failure of individual Directors to adhere to the Director Code of Conduct are specified in Policy 4 Appendix.

Governance Policy 4 – Appendix

DIRECTOR CODE OF CONDUCT SANCTIONS

1. Directors shall conduct themselves in an ethical and prudent manner in compliance with the Director Code of Conduct, Policy 4. The failure by Directors to conduct themselves in compliance with this policy may result in the Board of Directors instituting sanctions.
2. A Director who believes that a fellow Director has violated the Code of Conduct may seek resolution of the matter through appropriate conciliatory measures prior to commencing an official complaint under the Code of Conduct.
3. A Director who wishes to commence an official complaint, under the Code of Conduct, shall file a letter of complaint with the President within thirty (30) days of the alleged event occurring, and indicate the nature of the complaint and the section or sections of the Code of Conduct that are alleged to have been violated by the Director. The Director who is alleged to have violated the Code of Conduct, and all other Directors, shall be forwarded a copy of the letter of complaint by the President, or where otherwise applicable, in what follows, by the Vice-President, within five (5) days of receipt by the President of the letter of complaint.
4. When a Director files a letter of complaint, and a copy of that letter of complaint is forwarded to all Directors, the filing, notification, content, and nature of the complaint shall be deemed to be strictly confidential, the public disclosure of which shall be deemed to be a violation of the Code of Conduct. Public disclosure of the complaint and any resulting decision taken by the Board of Directors may be disclosed by the President only at the direction of the Board of Directors, following the disposition of the complaint by the Board of Directors at a hearing.
5. As a general guide, a Director is not to speak longer than three (3) minutes on any motion. The Chair has the responsibility to limit the discussion by a Director when such a discussion is repetitive or digresses from the topic at hand, or where discussion takes place prior to the acceptance of a motion.

No one shall interrupt a speaker, unless it is to ask for important clarification of the speaker's remarks, and any such interruption shall not be permitted without permission of the Chair.

Should a Director arrive at the meeting after a motion has been made and prior to taking a vote, the Director may request further discussion prior to the vote. The Chair shall rule on further discussion.

A Director may require the motion under discussion to be read at any time during the debate, except when a Director is speaking.

A simple majority of a quorum of the Board of Directors will decide in favour of the question. In the case of an equality of votes, the question is defeated. A vote on a question shall be taken by open vote, expressed by show of hands.

8.6 Debate

Governance Policy 7 Appendix B

ASBA Travel and Expense Policy 2012

1.0 Introduction and Background

The Association sets policies in respect of approved travel and expenses incurred by the Board of Directors, employees, trustees and contractors working on Association business.

2.0 Policy

This policy applies to the ASBA Board of Directors (board members), trustees serving on ASBA task forces or committees, employees and contractors working for ASBA when traveling or otherwise incurring expenses in relation to ASBA business.

Employees, contractors, board members and trustees **shall exercise good judgment and act prudently when incurring expenses** when carrying out their duties on behalf of the Association.

All claims must be submitted on a timely basis within 30 days of the event. In all circumstances, claims for expenses and travel within a fiscal period (Sept 1 through August 31) must be submitted no later than the 15th of September in the following fiscal period.

3.0 Travel

3.1 Air Travel

Air travel is reimbursed when this is the most practical and economical way to travel.

When traveling on Association business, it is expected that board members, employees, trustees or contractors will fly economy class.

Air travel will be reimbursed at the actual cost for an amount not exceeding full fare economy rates travelling by the most direct routes. Advanced booking for reduced fares should be made whenever possible. The lowest practical airfare must be chosen from the alternatives available at the time of booking. First class or business class is not permitted. Exceptions may be made if travel requirements are excessive and upon prior approval.

All airline ticket stubs must be attached to your expense claim form noting the purpose of the trip.

Exceptions to this policy may be authorized by the Executive Director.

28-10

3.2 Private Vehicle Allowance

When road transportation is the most practical and economical way to travel, the Association will pay mileage for the use of a personal vehicle for business purposes at the per kilometre rate approved during the annual budget process each year.

The Association has compiled a standard chart, which is used to verify mileage (or kilometres) claims in every case.

If the Association provides group transportation, then travel from Edmonton to that destination will not be reimbursed unless prior approval from the Executive Director is obtained.

3.3 Ground Transportation

Ground transportation may be hired or rented when justifiable.

The cost of a rental car and gas will be reimbursed by receipt. The size of the rental car must be the most economical and practical for the business task and number of occupants. Luxury and sports car rentals are not allowed. Mileage is not paid on car rentals.

The cost of a taxi is reimbursed by receipt. If the cost of a limousine is comparable then you may take this mode of transportation. If the cost of a limousine is considerably more than a taxi then this mode of transportation would not be allowed.

Parking and bus transportation is reimbursed by receipt.

4.0 Accommodation

Accommodations for Board of Director meetings, strategic planning and the leadership retreat will be made by the Association. If for whatever reason you have to cancel these accommodations, you must notify Association staff or contact the hotel directly so the Association is not inadvertently billed for the room charge. In the event you do not notify staff about a cancellation, the room will be charged to your school board or zone.

When board members, trustees, employees or contractors are making their own arrangements, it is expected that you will book the best available rate for single occupancy in a standard room. If you are attending a conference, the best available rate is the rate at the approved conference hotels. If you stay elsewhere and the rate exceeds the approved rate then the Association will pay the approved conference rate or the additional cost will need to be approved by the Executive Director.

Accommodations for the Executive Director and President are determined by business need. Receipts are required for reimbursement.

When on Association business, private stays with family or friends is acceptable. A maximum of \$50.00 per night for private lodging expenses is allowed. No receipt is required.

28-11

5.0 Meals

Reasonable expenses, accompanied by appropriate receipts, will be reimbursed for meals while meeting or traveling on Association business.

If you are required to leave home prior to 7:00 am to attend a meeting, a claim for breakfast can be made. If your return home is after 6:30 pm a claim for dinner is allowed.

Standard amounts are allowed, **without receipts**, for meals: Breakfast - \$10.00, Lunch - \$10.00 and Dinner - \$10.00 for a total of \$30.00 per day.

Alternatively, you may submit receipts for meals and will be reimbursed for the amount of the receipt up to a maximum of \$50 per person per meal.

It is expected that reasonable prudence will be exercised if a receipt is provided. If a meal exceeds this cost, the cost will need to be approved by the Executive Director.

The purchase of alcoholic beverages will not be reimbursed.

For audit purposes, **the itemized receipt must be included** with your expense claims. Please attach this to your bank or credit card receipt. If it is a shared cost (divided by the group), please have one person obtain the itemized receipt for our records.

If a meal is charged to your hotel room, please attach the itemized receipt with your hotel receipt.

The Association reimburses a maximum of three meals a day if you are away from home on Association business and meals have not been provided.

If meals are provided during an event or conference it is expected that no additional costs will be reimbursed. If you decide to purchase your own meal when one is provided you will be unable to claim back this expense.

The Association does not pay for beverages (bottled water, specialty coffees/teas, pop) outside of those ordered with meals or provided at meetings.

On each receipt, the purpose of the meeting or conference name and the people included on the receipt should be noted.

6.0 Telephone

Board members, employees, trustees and contractors working on Association business will be reimbursed for business calls incurred while away from the office and for reasonable personal calls while traveling on ASBA business. Reasonable personal calls is generally considered one phone call home per night unless there are circumstances that require additional contact.

28-12

Digital devices (cell phones, iPads) issued to employees, contractors or Board Members are provided to facilitate ASBA work, including times when travelling outside of the province or country. Most of these plans have enough capacity to allow for some personal use of the devices. In the event that personal use of a device incurs additional costs, the employee, contractor or board member is responsible for reimbursing the Association for these costs.

US Travel

If you are planning to take your device out of country for work purposes, you are responsible for notifying the Association so that a US Data, Voice and Text plan can be purchased to reduce the costs to the Association.

If you take your work cell phone or iPad on a personal holiday you are responsible for paying any of the associated costs of the phone including the cost of the US roaming plan, roaming charges and long distance charges. If during this time you are using your phone or iPad for business too, the cost will be prorated to reflect the proportion of cost related to personal use and the proportion of cost related to business use.

7.0 Other Business Expenses

7.1 Park passes

If your meeting or conference takes place in a federal park and you require a park pass, this will be reimbursed at the single rate for the number of days you were expected to be at the meeting or event. If you extend your stay for personal reasons it is expected that you will cover the additional cost. If it is more economical to purchase an annual pass because the number of days x the single rate exceeds this cost then you may purchase an annual pass. A receipt is required.

7.2 Gratuities

Reasonable gratuities for meals, bellhops, hotel room services and taxis will be reimbursed.

7.3 Miscellaneous expenses

While travelling on Association business, additional but necessary business expenses not otherwise covered will be reimbursed by receipt. This includes photocopy or fax charges, Internet connections if used for business purposes and equipment rental for presentations.

7.4 Professional development/courses

Courses or professional development expenses for employees will be reimbursed by receipt. Evidence that the course was successfully completed is required. In the event the course is not completed, the employee will be required to reimburse the cost to the Association. Prior approval is required.

8.0 Entertainment and Hospitality

Reasonable costs of entertainment, meals or hospitality, when providing for a specific business purpose, are reimbursable for senior staff, the President and the Executive Director. There must be clear documentation as to the business purpose of the hospitality noting the names of the individuals or the group involved.

9.0 Submitting and Approval

For employees and contractors, travel and expense claims should be submitted to your direct supervisor for approval and submission.

Board member and trustee per diem and expense claims should be submitted to the Executive Director for approval and submission. In the event the Executive Director is away, these can be submitted to the Director of Finance for approval and submission.

The Executive Director's expense claims should be submitted to the Vice President for approval and submission.

(The Executive Director at his discretion may approve expenses that fall outside the travel and expense policy outlined above.)

4. Resource Personnel

The Executive Director may appoint resource personnel to work with standing or ad hoc committees and shall determine the roles, responsibilities and reporting requirements of the resource personnel.

Governance Policy 9

BOARD OF DIRECTORS REPRESENTATIVES TO EXTERNAL COMMITTEES

The Board of Directors may appoint Directors and others to represent the Board on various external committees, agencies and organizations. Such representation is established at the discretion of the Board of Directors to facilitate the exchange of information on matters of mutual concern and/or to discuss possible agreements between the Association and other organizations. In general, the intent is to maximize the influence of the Association.

The Board of Directors will determine the terms of reference for each representative. The Executive Director may appoint resource personnel to work with representatives and shall determine the roles, responsibilities and reporting requirements of resource personnel.

1. Types of Committees

The following typology will provide guidance regarding appointments to external committees:

CATEGORY A

Category A committees are overarching advisory structures that provide input to sponsoring agencies at the elected official, CEO or equivalent staff level. Their terms of reference or mandate are such that their deliberations impact policy type decisions that affect large numbers of students or employees.

Committee representatives have voting status; the ASBA may also be entitled to additional representation of non-voting observer status.

The ASBA appointees to Category A committees will normally be Directors or the CEO. If no Director is able to serve, preference will be given to trustees who have Director experience. In most instances, where the sponsoring agency allows, staff officers will be assigned to act in an observer/supporter role. The Board of Directors will make appointments to Category A committees.

CATEGORY B

Category B committees provide input to middle management levels of the sponsoring agency. The input they provide affects decisions for "wide scope" programs, but normally the issues they address are reviewed at higher levels within the sponsoring agency. The issues are often a mix of policy and operational implications of policy. At times these committees may function as "appeal" committees or interpreters of policy. Committee representatives have "voting" status.

30-2

The ASBA appointees to Category B committees will normally be trustees. If deemed necessary, staff officers may be appointed as observers/supporters or as alternates. The Board of Directors will make appointments to Category B committees.

For Category A and B committees where the proposed appointee is a Director, the President will make the recommendation to the Board of Directors.

For Category A and B committees where the Board of Directors' appointee is a trustee, the Director who will review submissions of interest for external committee representation and make recommendations to the Board will be determined by the following rotation:

President
 Zone 1
 Vice-President
 Calgary Catholic
 Zone 2/3 (1)
 Edmonton Public
 Zone 4
 Edmonton Catholic
 Zone 5
 Calgary Public
 Zone 6
 Zone 2/3 (2)

CATEGORY C

Category C committees provide input to program managers or middle managers. The issues they address are usually limited to a specific program and/or event. Usually they operate within broad policy parameters and interpret policy within a specific operational context. These committees are at times referred to as "working groups" or "working committees". In most, but not all instances, their work will be relatively short term. These committees also include ones where the ASBA has only "observer" as opposed to "voting" status, and the prime role of the appointee is to facilitate communication between the ASBA and the sponsoring agency.

The ASBA appointees to Category C committees will normally be staff officers. Appointments are made by the Executive Director and reported to the Board of Directors.

CATEGORY D

From time to time, sponsoring agencies, especially Alberta Education, have a need for representatives who can provide a layperson's perspective on a variety of educational issues. The agency is not looking for the corporate view of the ASBA, but looks to the ASBA to help them find a reasonably well-informed and responsible representative. These committees may be advisory to any level of management within the agency, but usually they are dealing with operational rather than policy issues. Committees of this type are characterized as Category D committees.

The ASBA appointees to Category D committees will be trustees, preferably with no professional background in education. Both the sponsoring agency and the appointee will be advised that the appointee does not represent or should not feel compelled to represent an ASBA corporate position. Appointees are expected to report back to the ASBA and raise issues that may be of concern to the ASBA. Appointments to Category D committees are made by the Executive Director and reported to the Board of Directors.

2. Appointment Terms

Committee representatives will normally be appointed for two-year terms or for the life span of the committee, whichever comes first. If the life span of the committee is more than two years, a committee member may be re-appointed at the discretion of the appointing authority as determined in the committee typology set out above.

3. Appointment Communication and Rationale

External committee representation opportunities will usually be made known through the use of "Interest in External Committee Representation" Fax Back Forms. Attempts will be made to ensure appointments are allocated equitably with regard to factors such as Zone distribution, size of Board and public/separate balance.

4. Expectations for Committee Representatives

Committee representatives are responsible for advancing ASBA positions as provided in the Association's mission, vision, mandate, guiding principles, policies and directives for action. If formal direction has not been provided and there is a policy gap, the representative is to identify the need for Association direction in a formal report to the Board of Directors, and recommend, if possible, what that direction should be. The representative is further expected to keep the ASBA Board of Directors informed about committee work and direction through the tabling of written reports.

5. Reports to the Board of Directors

Representatives shall provide written reports to the Board of Directors using the prescribed committee report format (as noted below) following each committee meeting.

Committee Meeting Reports

The required section is a maximum of one page, formatted as a Board of Directors meeting agenda item. The requirements for this one-page report are as follows:

1. A Title
 - Substance: A brief description of the item e.g. "Program and Assessment Advisory Committee Meeting Report".
 - Format: The title is to be capitalized and bolded; 11 point Arial is preferred.

30-4

2. **An Issue**
Substance: The issue is to state what the ASBA has to address as a result of what occurred at the meeting; if you think nothing has to be addressed or no action has to be taken, simply state, "No issues; the report is for information only."
Format: Use the heading "Issue" in bold type, lower case letters; then state the issue(s) in one or more brief sentences. This is to be stated in question form.

3. **The Background**
Substance: The background section is to list items discussed at the meeting and decisions reached, and is to highlight those matters that relate most directly to the issue you have identified.
Format: Use the heading "Background" followed by two or three brief paragraphs; point form is acceptable.

4. **The Recommendation(s)**
Substance: The recommendation(s) is/are to state the action(s) that you think ASBA must take related directly to the issue identified at the outset; if no action is required, simply state "that the report be received for information".
Format: Use the heading "Recommendation(s)" followed by statements of the action(s) to be taken, using the word "that" as the first word. Number the recommendations.

5. **The Attachment(s)**
Substance: Your one-page report is a requirement. Attachment(s) are optional. Use them if you feel that the Board of Directors may wish to receive more explanatory detail. Attachments will be similar to meeting minutes, but will be your interpretation of what happened at the meeting.
Format: (see next section below)

Attachments to the main meeting report that comprises the Board of Directors' meeting agenda item are optional.

Usually the second part of your report, the attachment, will consist of a more extended summary of the meeting than you can incorporate in the one-page required report. The substance and the format for the attachment is somewhat optional; use your discretion. Some suggestions for an attachment that provides a more extensive report of the meeting are as follows:

- ♦ Use a heading that names the committee and states when it met and who attended and is reporting.
- ♦ If necessary, provide a bit of background about the committee that will help the reader interpret the report.

- ♦ List and briefly explain each item discussed at the meeting. Indicate what position you took as an ASBA representative. If you feel there is direct relevance or issues for ASBA, indicate what the relevance is. You might include some areas that you think are issues for ASBA, but for which you feel no immediate action is required. Thus the issues set out in the attachment may not all appear as issues in your main one page Board report.
- ♦ Include any motions passed at the meeting.

These attachments will be similar to the minutes of the meeting. However, they will be “your take” on the meeting. They will likely be shorter than the minutes. Since you will write them, they will be done more quickly than the minutes are usually available to you. Even if they are available quickly, it is not necessary to include actual meeting minutes as attachments.

Meeting reports are to be e-mailed (preferred) or faxed to Marian Johnson, Administrative Assistant. E-mail and use of Word is preferred.

E-mail: mjohnson@asba.ab.ca

Fax Number: (780) 482-5659

Annual Reports

In addition to filing meeting reports after each meeting, Committee representatives are required to file annual reports. Annual reports must be submitted on the form found in the Appendix.

Annual Reports are also to be e-mailed (preferred) or faxed to Marian Johnson. They must be submitted on or prior to January 30 (for the previous calendar year) each year.

Governance Policy 9 Appendix

PROTOCOL FOR EXTERNAL COMMITTEE REPRESENTATIVES

BACKGROUND

The ASBA Board of Directors is pleased that you have agreed to give of your time to represent the ASBA. Your role as an external committee representative is a highly important one.

At any time, the ASBA is represented on approximately 50 external committees. These committees are established by a variety of sponsoring agencies or organizations. Several of these committees advise Alberta Education as provincial educational policy is developed in areas such as curriculum, student evaluation practices, teacher certification requirements and practices, governance policies and finance plans. Departments of government other than Alberta Education, such as Alberta Infrastructure, also seek our advice through advisory committees. Other committees provide input to post secondary institutions, especially as their work relates to teacher training. Yet other committees provide input to stakeholder organizations such as the Alberta Teachers' Association.

One of the major ways that our Association can influence educational policy is through our representation on advisory committees. You can assist the Association by ensuring that our beliefs and policy positions are given full consideration.

It is always a challenge for any organization to ensure tight linkages between its Directors and the staff and committee appointees who work together to further our common aims. ASBA wants to facilitate your efforts by clarifying the expectations held of you as a representative. We want to make sure that lines of two way communication between you and the Board are clear and open at all times. We hope that the guidelines set out in this Protocol document will be helpful in that regard. We invite you to give us feedback that will help to improve these guidelines in the future. Please send any comments about these guidelines or any aspect of your role as an ASBA representative to the Executive Director at any time.

Thank you for assisting ASBA in its important work of ensuring that the best education possible is provided for our students, and for ensuring that the voice of trustees is heard.

COMMITTEE REPRESENTATIVE APPOINTMENT PROCESS

Types of Committees

Your Association has developed a typology of committees. This typology assists the Board of Directors in making appointments on a consistent basis. The types and the appointment guidelines are set out in Board of Directors governance policy 9. It is important to note that the typology is only a guideline used by your Board. There are many reasons why they might make some appointments that do not follow the guidelines in a rigid manner.

Examples of Category A Committees include the following:

- ♦ Council on Alberta Teaching Standards (COATS) – Advisory to the Minister. Input affects all aspects of teaching for all teachers
- ♦ Program and Assessment Advisory Committee (PAAC) – Advisory to the Assistant Deputy Minister, Basic Learning Division. Input affects all aspects of student learning programs, e.g. curriculum, graduation requirements, student assessment programs and practices

Examples of Category B Committees include the following:

- ♦ Primary Programs (K-3) Advisory Committee
- ♦ Certification Appeal Committee

Examples of Category C Committees include the following:

- ♦ ATA's Curriculum Committee
- ♦ Alberta Education's Social Studies Advisory Committee
- ♦ Alberta Education's Education Week Committee

Examples of Category D Committees include the following:

- ♦ All of Alberta Education's Diploma Examination Advisory Subject Area Advisory Committees (Math, Science, Social Studies, etc.)
- ♦ Edmonton Catholic School Board's Edulink Advisory Council

Appointment Terms

As a committee representative, you are asked to alert the Administrative Assistant when your two -year term is coming close to expiry. You should also indicate whether you have a desire to be re-appointed. You are also asked to alert the Administrative Assistant if the committee you are on ceases to exist.

Appointment Procedures

When the ASBA receives a request from a sponsoring agency to appoint a representative to a committee, the Executive Director distributes a memo to all Board chairs to ascertain interest in serving on the new committee. The memo provides a description of the

30-8

committee. A fax back form "Interest In External Committee Representation Fax Back Form" is enclosed with the memo.

Board chairs are asked to alert the trustees on their boards of these opportunities. Usually time is of the essence and prompt replies are appreciated.

The Fax Back Form requests interested parties to state briefly their expertise in the area of the committee's work and how they feel they might contribute to its efforts. The appointing authority (as set out in Board of Directors governance policy 9) reviews these expressions of interest and makes an appointment. Attempts are made to ensure that appointments are allocated equitably with regard to such factors as Zone distribution, size of Board, and public/separate balance.

GUIDELINES FOR REPRESENTING THE ASBA

Know and be guided by policy

The ASBA is a policy driven organization. Association Policy is set by the membership at the Spring and Fall General Meeting each year. Policy is communicated through the ASBA Governance Handbook, updated periodically to reflect policy changes. In order to allow the Association to respond to issues in a timely manner, the Board of Directors is also empowered to set policy as required which must be ratified by the membership at the next General Meeting.

Committee appointees represent a corporate point of view. As such, you must familiarize yourself with Association policy, particularly in the area related to the work of the committee you are on. Policies are guides to action.

Maintain open communications with the Association

- ♦ In many instances, you will be asked for input on matters on which the ASBA has no specific policy, or you believe there is a need for the Association to reconsider its current policy. In such situations, you can follow the following guidelines:
 - ◊ If the matter appears not to have general policy implications or to have minimal or short-term consequence, use your best judgment. Report the position you have taken in your next meeting report, so that your colleagues, the Board of Directors and Association staff are aware of it.
 - ◊ If the matter appears to have policy implications, or if the position you feel should be taken is at variance with existing policy, ask the committee chair for time to research the matter before the committee moves to closure. Usually if the matter is of this level of significance, other committee members will also want time to discuss it with their constituents. Then discuss the matter with the Executive Director, who will help you determine if there is a further need to discuss it with the President or possibly the Board of Directors.

- There are instances where there is no specific policy on a matter under discussion, but where it is quite clear that a position can be inferred from existing policy. For example, at one time ASBA had a policy that stated a need for high school math course streams so that the needs of the mid-range student could be met. If you found yourself on a committee addressing the issue of program structure for language arts, you might assume that the same situation would apply. In such instances, you may want to alert ASBA, through your meeting reports, that there may be a need to develop more generalized policy belief statements.
- ♦ In some instances, committees on which you serve will deal with matters where confidentiality is requested. Committee chairs should clarify this at the outset. You are certainly at liberty to respect such confidentiality. However, if the matter is of the nature described above, you should still request permission to discuss the matter with the Executive Director and/or President prior to taking a position. These individuals will also respect whatever confidences may be necessary.
- ♦ Create “linkages” with other committee representatives dealing with a similar area. For example, ASBA is represented on several Alberta Education curriculum committees. It’s useful to know what issues the other related committees are addressing and how they are addressing them.
- ♦ If a staff observer is assigned to work with you on the committee, discuss your working relationship in advance. Staff observers can be particularly helpful to you by reviewing agendas and providing you input in advance of the meeting. If you agree that the staff observer can speak at the meeting, make sure your messages are aligned. Staff observers can also save you a lot of time by drafting meeting reports for you. However, the report is yours, and you should review it and feel free to request changes before the report is filed if you feel it is necessary.

Adhere to general good committee member practices

Most of you are no strangers to working with groups. A committee is really just another working group. The following are a few “reminders” that might be of assistance.

- ♦ Be supportive and be a good listener. Listen attentively to the speaker and avoid interrupting. Give others a full opportunity to explain their point of view before reacting. Encourage fellow committee members to share their opinions and comment on issues. Even when disagreeing, find something positive in other members’ points of view where possible. Compliment the chair for running a good meeting.
- ♦ Greet committee members and talk with them. Show interest in the person sitting next to you. Representatives of CASS and ASBOA in particular will often have a perspective similar to yours. Serve as a coach and mentor. Volunteer to take time to update a new committee member on what has happened in the past.
- ♦ Don’t shoot the messenger. Committee chairs or people making presentations to committees also represent a corporate point of view, especially employees of Alberta Education. At times they may not even personally agree with the point of view they are expressing or the program they are representing. Try to de-personalize your responses and criticism.

30-10

- ♦ Stick to the “big issues”. (Some refer to this as “picking your hills to die on.”) Most committees address several issues. Rather than appearing to be negative, at times it may be preferable to remain silent on some matters, so that you will be more likely to be heard on the big issues.

REPORTING EXPECTATIONS

Meeting Reports

You are expected to file a report with the Executive Director as soon as possible after each meeting you attend. Expectations for these meeting reports are set out in Board of Directors governance policy 9. An example of a meeting report is attached to this protocol.

Your report will consist of one required section and one optional section. The required section is a maximum of one page formatted as a Board of Directors meeting agenda item. The requirements for this one page report are outlined in the above referenced policy.

(SAMPLE) REPORT TO ASBA BOARD OF DIRECTORS

WESTERN CANADA PROTOCOL SOCIAL STUDIES PROGRAM INPUT

Issue

Should the ASBA submit a brief in response to the consultation draft of the Western Canada Protocol Social Studies Framework?

Background:

ASBA representative Keith Wagner attended another meeting of the Social Studies Advisory Committee on February 26-27, 2001. (Meeting report attached). Alberta Learning is holding a series of provincial forums to receive input to the consultation draft of the Western Canada Protocol Social Studies Framework. This Framework will no doubt become the new Alberta Program of Studies for Social Studies. The President has sent a letter to all board chairs encouraging them to have one trustee from each board attend the regional forums. Those who attend the forums have also been invited to submit input to ASBA to assist in the preparation of an ASBA brief.

Recent meetings of the Social Studies Advisory Committee have identified several issues of interest to ASBA. In particular, the WCP consultation draft does not explicitly identify local government as a topic of study. As well, changes have been made to the vision statement regarding citizenship that was approved provincially as part of the earlier Foundation Document for WCP Social Studies. Other issues that may be of concern to ASBA include: (1) the manner in which "active citizenship" is clarified, and its implications for the extent to which teachers are expected to have students engage in social action, (2) the design of the implementation project required to support the implementation of the new program in Alberta, (3) the manner in which the Framework is organized, and its implications for directing teaching methodology, and (4) the number and nature of distinctive learning outcomes for Francophone and Aboriginal students.

Stakeholder organizations are being invited to submit briefs by April 15 responding to the WCP consultation draft. These briefs and input received from other sources such as the regional forums will be used by Alberta Learning in preparing an Alberta response to the draft. A brief prepared incorporating input provided by the trustees who attend the forums would enable ASBA to exert substantial influence on the direction of the social studies program.

Recommendation

1. That ASBA prepare a brief responding to the WCP consultation draft of the Social Studies Framework.

(SAMPLE) ATTACHMENT**SOCIAL STUDIES ADVISORY COMMITTEE MEETING
FEBRUARY 26-27, 2001****(Report prepared by Keith Wagner,
who attended this meeting on behalf of the ASBA)****Background**

Alberta Learning has been working for some time with the Western Canada Protocol (WCP) to prepare a Social Studies Program Framework. WCP first prepared a Foundation Document to set the broad philosophical directions for the program. ASBA and other stakeholders had input to the Foundation Document through regional forums and through representation on the Advisory Committee.

Two major concerns arose from the last Advisory Committee meeting held on November 9-10, 2000. The vision statement in the draft Framework presented at that time was different from the one in the Foundation document that had been signed off by all WCP partners. The scope and sequence outline did not include a place for the study of local government. Leroy Sloan and Keith Wagner subsequently met with Sue Lynch and received assurances that (1) the draft Framework would not be circulated for response in Alberta until the western ADMs had considered the issue of changes to the vision statement, and (2) the Alberta program revision would have a place for the study of local government.

Meeting Items, Disposition and Issues**1. Status of Developments**

- ♦ The WCP has revised the earlier draft of the Grades K-9 Framework, and has completed a consultation draft that will be used in regional forums and as the basis for stakeholder input in Alberta.
- ♦ A printed copy of the consultation draft will be sent to every school in Alberta along with a response form.
- ♦ An Alberta response to the consultation draft of the Framework will be prepared this spring and submitted to the WCP working group. WCP hopes to have a final version of the Grades K-9 Framework signed off by August 2001.
- ♦ A publisher's meeting is scheduled for May 14-15, 2001. By that time, Alberta Learning hopes to have a fairly clear direction regarding the scope and sequence for Grades K-9 to share with publishers.
- ♦ Input received by Alberta Learning to this point (from a teacher's working group and from Teacher Convention presentations, etc.) has indicated the following concerns:
- ♦ There appears to be a "content overload"

The scope and sequence for senior high school has yet to be developed, and that makes it difficult to comment on the proposed scope and sequence for K-9, especially for junior high

- ♦ The program revision will be major and will require extensive support for resources and in-service
- ♦ The issue of “streaming” in senior high school has yet to be discussed.
- ♦ The philosophy of the program as set out in the front pages of the Framework appears to be quite sound, but is not yet adequately reflected in the actual grade by grade content that follows.

ISSUE: ASBA should ensure that trustees are informed of the regional forums and are represented at the forums. In addition, ASBA should prepare a brief responding to this consultation draft in a corporate manner. This will be the major opportunity to have input to the future direction of social studies.

2. Content Themes

The Committee reviewed an outline of the proposed Grades K-9 content themes (copy attached). Committee members were cautioned that the brief descriptors in this outline could not fully capture the “richness” of the specific learning outcomes (SLO’s) in the larger Framework. Members indicated that an outline such as this would be essential for certain audiences (especially lay persons such as trustees) to be able to get a holistic overview of the program. The following concerns were expressed:

- ♦ Every grade level has 3 sub-themes. This is too “forced”. More sub-themes might be appropriate in the earlier grades, and fewer in the later grades. Organization by sub-themes may also be perceived as dictating methodology, and this should be avoided.
- ♦ The sub-themes for some grade levels “pin down” the area of study, e.g. Mexico; while sub-themes in other grade levels, especially Grade 6, leave a lot of choices available. While choice provides flexibility, publishers may find it difficult to respond, and the public generally wants to know fairly specifically what areas will be studied in each Grade.
- ♦ The choice of Mexico as a sub-theme in Grade 7 is questionable. In spite of NAFTA, Canada has more trade relationships with Chile than with Mexico. The sub-theme could also be expanded to Latin America in general.
- ♦ Some of the terminology is not consistent.
- ♦ Some terminology will need to be explained or interpreted for teachers in support documents, especially as it relates to political correctness in the use of language, e.g. When does one use “indigenous peoples” as opposed to “Aboriginals”.
- ♦ Grade 4 appears too heavy; drop the “and the world” part
- ♦ Grade 5 could include “indigenous peoples of the world”
- ♦ Europe seems to have completely disappeared; will it receive heavy emphasis in senior high?
- ♦ GLO 7 could include the study of local government, but it is only cross referenced once in the grade level descriptors

30-14

ISSUE: The ASBA representative reminded the Committee that there was no explicit place in the sub-themes for the study of local government. While this can be incorporated in the Alberta program after the WCP Framework is adopted, Alberta has tried to have a high level of integrity to WCP Frameworks. It would be preferable that the Framework contained explicit reference to the study of local government.

3. Front End Content (Philosophical and Contextual Directions)

3.1 The Vision Statement

The vision statement in the consultation draft has been revised from that approved in the Foundation Document. The definition of “citizenship” as it relates to Canadian citizenship has been diluted somewhat. The original vision statement as outlined in the Foundation document is included as a footnote for comparative purposes. The Committee members are divided regarding which is the best statement. The ASBA representative favors the original statement (the one in the Foundation document) as it is the one that was widely discussed and agreed to by stakeholders in Alberta during the review of the Foundation document, and because it likely reflects the vision of citizenship embraced by most Albertans.

3.2 The Preface

Committee members felt that there needs to be an expanded definition of what is meant by “active citizenship”. If this means that teachers are expected to have students take social action, especially in their immediate communities, as a result of studying an issue, it could be problematic. Guidelines will need to be provided to teachers to avoid previous situations where teachers got into trouble with their supervisors because parents and/or community members felt that actions were inappropriate or partisan. The ASBA representative indicated that in addition to the other descriptions or characterizations of Canada, Canadians are also characterized by “peace, order, and good government”. Teachers would have to be very cautious to ensure that actions taken by students were at the least legal.

3.3 Introduction

Committee members felt that the reasons for the inclusion of “distinctive learning outcomes” for Francophone and Aboriginal students and the manner in which those outcomes are to be used should be more fully described.

3.4 Vision

Committee members agreed that it was good to include both versions of the vision statement in this consultation draft.

3.5 Definition of Social Studies

Agreed that it was a good statement.

3.6 Guidelines

Members expressed concern that there was too much emphasis on the need for learning to be “personally relevant”. There are important issues that students

should address and learnings they should acquire that may not be personally relevant. Members also felt that learning needed to be described as both a collaborative and individual process, not just as an individual process.

Members indicated that the term “metacognition” appeared to be inappropriately used in several places. They also indicated that there should be more elaboration regarding the inquiry process.

3.7 General Learning Outcomes

Members offered the following comments:

- ♦ There are too many GLO’s; the number suggested by the Foundation document was more appropriate
- ♦ GLO 1, Citizenship, is of a higher order than the others, and should be characterized as being pervasive to the entire program
- ♦ GLO’s 3 and 6 are not directly related to any social science discipline and could be subsumed under other GLO’s
- ♦ The focus in the program appears to be on people’s differences; there needs to be a balancing focus on our common humanity
- ♦ The discipline of philosophy is not reflected in any GLO and needs to be there, especially as program development moves into senior high school levels
- ♦ The term “Nation” is used in several different ways; clarification needs to be provided or other terms such as “nation-state” need to be substituted where appropriate

ISSUE: The ASBA response brief should reinforce concerns outlined above.

4. Distinctive Learning Outcomes

The Aboriginal and Francophone representatives broke out from the Committee to have further discussion of the Distinctive Learning Outcomes. The remaining members discussed the structure of the regional forums.

The ASBA representative appealed to the Aboriginal and Francophone representatives to have a close look at the DLO’s from the perspective of whether they were really unique to their cultural groups or could be appropriate for all students.

One Francophone representative made a general comment, supported by other members of the Committee, that there are many specific learning outcomes overall.

ISSUE: None.

30-16

5. Organizational Structure

Committee members discussed the issue of whether the Framework should be organized by General Learning Outcomes or by sub-themes. The ASBA representative expressed a preference for using GLO's as the organizational structure, as this structure could not be construed as dictating a methodology of organizing for instruction. If the Framework or the follow up Alberta Program of Studies is organized by sub-themes, the assumption will be that these are units and that teachers are expected to organize their year in this way. Members seemed to agree, provided that there was assurance that there would be support documents for teachers that gave them a variety of ideas of how they could organize the content for instruction.

ISSUE: The ASBA response brief should reinforce the views expressed above.

6. Implementation Timelines

Joan Engel indicated that the proposed implementation timelines would now be September 2005 for all grade levels. There would be piloting done at all levels, and one-year optional implementation in Grades K-9. There would be no optional implementation year in senior high due to high demand for change and the difficulty of preparing alternative forms of the diploma exams if there is optional implementation.

ISSUE: None - the only departure from ASBA policy appears to have reasonable justification and support.

7. Implementation Support

The Committee passed a lengthy motion having to do with implementation support. The essence of the motion is that Alberta Learning should mount an Implementation Project modeled on that used for the implementation of the last major revision of social studies in 1981, and funded to similar levels. In 1981, Alberta Education spent \$8 million to carry out what is considered by many to have been the most effective curriculum implementation ever undertaken in the province (this has been referred to in professional literature as among the best implementation efforts known anywhere). The implementation motion addressed several interrelated issues including professional development of educators, provision of basic and support resources, and negotiation of acceptance of courses by post-secondary institutions. A rough estimate of today's costs was indicated to be \$25 million. It was noted that while this seemed large, compared to the overall expenditure for education, it was not unrealistic. The motion is fully consistent with ASBA policy regarding curriculum development and implementation.

ISSUE: The ASBA response brief should reinforce the motion passed by the Committee to attempt to ensure that implementation is adequately supported.

ASSOCIATION POLICY DEVELOPMENT PROCESS

Desired outcomes of the Association's policy process:

- ♦ Provides timely communication and action which serve the interests and perceived needs of members;
- ♦ Unifies the members around collective action;
- ♦ Elegant in its simplicity (takes into consideration all complexity surrounding the process, with a result that is understandable; not simplistic);
- ♦ Issues focused rather than process/parliamentary procedures focused.

1. Development Principles

The following principles shall guide the development, adoption, and attendant actions on Association policy positions placed before the General Meeting.

- 1.1 Positions are to clearly define the belief, need, or concern to be addressed by the General Meeting.
- 1.2 Positions are to be consistent with the vision, mission, mandate and guiding principles and the needs of the Association, thereby making the Association's positions both sound and consistent.

Where the substance of a position would alter or contradict an Association position in effect, amendment to or deletion of the policy is to be an integral part of the Association policy position.

- 1.3 Association policy positions are defined as "guidelines for future discretionary action." These statements serve to guide:
 - 1.3.1 The ASBA President, when making representations to the Minister and other organizations;
 - 1.3.2 The Board of Directors in identifying and selecting alternative modes of action within the parameters given;
 - 1.3.3 Those who represent the Association on external committees; and
 - 1.3.4 Trustees when addressing a current issue, whether at a forum, task force, or other structure.

Association policy positions allow the membership to steer the Association in desired directions.

- 1.4 Association policy positions are to be reviewed a minimum of every five (5) years to either reaffirm, amend or delete existing policy in order to give maximum emphasis to the needs and/or concerns of the membership.

31-2

- 1.5 Association policy positions can also seek to delete existing policy.
- 1.6 Updates on Association policy work undertaken by the Board of Directors are to be given at all Zone meetings. As well, opportunities for input are to be provided.

2. Regular Policy Positions

- 2.1 Notwithstanding Bylaw 7.2(g) regular policy positions will normally be considered at the Fall General Meeting.
- 2.2 The Policy Development Advisory Committee shall request all member boards to identify proposed Association policy positions affecting education in their jurisdictions. The call for proposed Association policy positions will be made annually to develop policy positions for consideration at the Fall General Meeting.
- 2.3 Member boards shall submit their proposed Association policy positions, together with appropriate background research information, to their respective geographical zones.
- 2.4 Geographical zones may forward up to three proposed Association policy positions sponsored by a Board or the Zone to the Association. Suggested amendments to existing policy will be in addition to the above limits. (Zone 2/3 – maximum of six.)
- 2.5 The Board of Directors, or the Policy Development Advisory Committee, shall:
 - 2.5.1 Review the proposals from the Zones;
 - 2.5.2 Request additional background or clarification when warranted;
 - 2.5.3 Ensure consistent format;
 - 2.5.4 Amalgamate overlapping proposals;
 - 2.5.5 Determine reclassification as a directive for action or issue, if warranted.

The proposed policies (additions, deletions, amendments, reaffirmations) will be reviewed by the Board of Directors or the Policy Development Advisory Committee and then circulated to Boards and Zones for review and response.
- 2.6 Zone responses to the draft positions shall be sent to the Board of Directors, or the Policy Development Advisory Committee, to be reviewed to ensure the draft positions reflect the intent of the Zones.
- 2.7 The Board of Directors, or the Policy Development Advisory Committee, shall review responses from the Zones and is responsible for the final wording of policy positions to be presented for consideration to the Fall General Meeting. The Board of Directors shall place these statements before the membership at the Fall General Meeting.
- 2.8 In accordance with item 2.2, a timeline outlining the annual process will be provided with the call for proposed Association policy positions.

3. Extraordinary Policy Positions

A position shall be accepted for consideration as an Extraordinary Policy Position if:

- 3.1 The position arises out of the business of the General Meeting,
- 3.2 Consideration of the position is supported by a two-thirds majority of voting Full member Boards, and
- 3.3 The mover makes available the wording of the position to all delegates.

4. Emergent Policy Positions

- 4.1 Emergent positions submitted by the membership for consideration at a General Meeting shall be submitted to a committee of the Board of Directors by 4:00 p.m. on the twenty-eighth (28) day prior to the first business day of a General Meeting.

A committee of the Board of Directors shall assess each emergent position to determine its compliance with the principles for Association policy. A committee of the Board of Directors shall:

- 4.1.1 Reject positions that address issues which have arisen prior to the deadline for submission of regular policy positions; and
 - 4.1.2 Cause to be announced, immediately after the emergent position has been placed on the floor of the General Meeting, rationale for and decisions reached regarding compliance of the proposed emergent resolution with the principles for Association policy.
- 4.2 Emergent positions arising after the deadline for submission of emergent issues will be addressed by the Policy Development Advisory Committee with a recommendation to the Executive Committee for disposition.
- 4.3 If the criteria defining an emergent position is not met, the matter may still be considered as an emergent position by the assembly if:
 - 4.3.1 Consideration of the position is supported by a two-thirds majority of voting Full member Boards, and
 - 4.3.2 The mover makes available the wording of the policy position to all delegates.

5. Disposition of Outstanding Policy Positions

Positions not dealt with by the scheduled time of adjournment on the last day of the General Meeting shall be referred automatically to the Board of Directors for such action as the Board is at liberty to take in accordance with Bylaw 7(2)(g). However, these outstanding issues must be included on the agenda of the next general meeting.

Governance Policy 11

2. Directives for action are to be consistent with the vision, mission, mandate, guiding principles and policies of the Association.
3. The Board of Directors will determine what action, if any, is to be taken on directives for action formally submitted by a Zone or Metro Board representative on behalf of a member Board.
4. Where and when appropriate, the Board of Directors may place directives for action before the membership at a General Meeting.
5. Emergent directives for action may be referred to a General Meeting by the Policy Development Advisory Committee (PDAC) through the Executive Committee.
6. An accounting as to the progress made by the Association toward achieving the desired results in a directive for action and completion will be made at each General Meeting.
7. Once the directive for action is completed, the directive will be removed from further consideration.

Governance Policy 12

Process

1. Any Board may submit an issue through their Zone or Metro Board representative to the Board of Directors at any time.
2. The Board of Directors will normally refer the issue to the Policy Development Advisory Committee (PDAC).
3. The Board of Directors will determine what action, if any, is to be taken on issues formally submitted by a Zone or Metro Board representative on behalf of a member Board.

Governance Policy 13 Appendix A

EXECUTIVE DIRECTOR EVALUATION

Purpose of Performance Evaluation

The Board of Directors and the Executive Director share a commitment to continuous improvement and accountability. The evaluation process agreed to by the Board and Executive Director is set out in the document titled ASBA Executive Director Evaluation Process, Criteria and Timelines. The evaluation process and criteria are designed to build on past practice and address issues identified through a review of those past practices. These issues include:

1. There is a need for the Board to annually communicate their corporate expectations to the Executive Director.
2. There is a need for the Board to provide to the Executive Director affirmation and where required redirection relative to these expectations.
3. Evaluative comments and the written evaluation report must be based on clearly defined expectations and relevant evidence.

The evaluation process, criteria and timelines:

1. Provide for both growth and accountability, and the strengthening of the relationship between the Board and the Executive Director. The written report will affirm specific accomplishments and identify any identified growth areas. Growth goals may address areas of weakness or identify areas where greater emphasis is required due to changes in the environment.
2. Recognize that the Executive Director is the chief executive officer of the Alberta School Boards Association. The Executive Director is held accountable for work performed by other staff.
3. Emphasize the need for and requires the use of evidence for evaluation purposes. Evaluations are most helpful when the evaluator provides concrete evidence of strengths and/or weaknesses. The Performance Assessment Guide identifies the source of the evidence in advance, while the quality indicators describe expectations in regard to that evidence.
4. Meet contractual requirements in that the Executive Director and Board must both agree to this process document prior to implementation.
5. Are aligned with and based upon the Executive Director's assigned roles and responsibilities.

6. Are linked to the ASBA's Strategic Plan.
7. Set out standards of performance. The quality indicators in the Performance Assessment Guide set out initial standards. When growth goals are identified, additional standards will need to be set to provide clarity of expectations and a means of assessing performance.
8. Are a performance-based assessment system. Such an evaluation focuses on improvement over time. The second and subsequent evaluations take into consideration the previous evaluation, and an assessment of the executive Director's success in addressing identified growth areas.
9. Use multiple data sources. Objective data such as audit reports are augmented with subjective data. Evidence will be provided through internal reports provided by the Executive Director, external reports solicited by the Board from external sources and/or direct Board observation.
10. Elicit evidence to support subjective assessments.
11. Ensure written Board feedback is provided.

Governance Policy 13 Appendix B

EXECUTIVE DIRECTOR COMPENSATION

The Board of Directors believes the Association must have the ability to attract and retain an Executive Director with the background and relevant experience necessary to perform the duties associated with the expectations of the membership.

Therefore the Board believes the Executive Director must be fairly compensated according to the nonprofit sector. Fair compensation will be determined in the following manner:

1. An independent consultant will be retained by the Board of Directors to provide comparators. This will be done at a minimum of every three years.
2. There will be a minimum of 10 comparators to be determined by the Board and/or a committee of the Board.
3. At market survey time the Executive Director compensation shall fall within the 50th-60th percentile of the comparators total cash compensation depending on relevant experience and performance.
4. Annual compensation increases between market surveys will be a combination of a 3% annual increase based on satisfactory performance and the economic indicator of the Alberta Average Weekly Earning Index.

The Board of Directors recognizes that salary is determined through negotiations but will use this policy as the direction for the negotiations.

CONFIDENTIAL

Mr. Wayne Cao, MLA
Chair
Standing Committee on Legislative Offices
513 Legislature Building
10800 - 97 Avenue
Edmonton, AB T5K 2B6

Dear Mr. Cao:

Charging audit fees

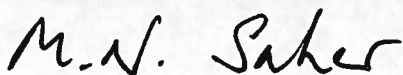

Since 1997, we have charged audit fees to certain organizations. This practice was originally thought to be useful to those organizations operating in competitive environments and then was expanded to organizations not funded primarily from the General Revenue Fund. Audit fees collected have never been retained by my office; they are forwarded to the General Revenue Fund.

I have concluded that the practice should cease since I believe it contradicts a fundamental principle of legislative auditing. Billing fees implies an exchange transaction between my office and the billed organization, as client. In fact, my client is the members of the Legislative Assembly who provide me with the public funds necessary to perform audits for Albertans, as required by the *Auditor General Act*. That cost is reflected within the annual total cost of the Offices of the Legislative Assembly.

Accordingly, we will not be issuing invoices to the attached audited organizations for the 2013–2014 fiscal year. Invoicing arrangements as detailed in current audit plans for organizational year-ends December 31, 2012 and March 31, 2013 will be followed through. We will continue to provide all organizations we audit with information on their budgeted and actual audit costs borne by Albertans.

Please feel free to contact me with any questions, comments or concerns at 780.422.6195.

Yours truly,

Merwan N. Saher, FCA
Auditor General

Secretary-Treasurer's Report
For the Period Ending July 31, 2013
Presented by Dennis Walsh Secretary-Treasurer

Introduction:

In the Statement of Revenues and Expenses, for the period ending July 31, 2013, our operating revenue and expenses appears to be in line with our operating budget. Below is a brief analysis of anticipated changes to our revenue and expenses for this fiscal year.

Federal Revenue

The Federal Revenue may still be adjusted depending on the outcome of the AANDC (Aboriginal Affairs and Northern Development Canada) audit of the First Nations students. The AANDC audits have been completed.

At a meeting with AANDC representative, we were informed that there were 30 students from Mistassiniy School and 16 students from the Outreach school that did not meet the attendance requirement of 40% during the period September 17th to October 12, 2012. If no adjustment is made to this number there will be a potential lost in revenue of \$867 thousand dollars.

Our Associate Superintendent has sent correspondence to the Principal of Mistassiniy and the Outreach School requesting information on the students who will be removed from funding. A meeting is scheduled for September 6 to present to AANDC this additional information for consideration of funding for these students.

Provincial Revenue

There have been small adjustments to our Provincial revenues because of priority conflicts and adjustments to the Transportation and PUF claims. However, the overall adjustment to Provincial revenues is not substantial.

Expenses – Salaries and Benefits

The following is a brief analysis of Salaries and Benefits:

Certified Salaries & Benefits

Year to July 31 the actual Salaries and Benefits is \$23,457,094. The projection to the end of August will be around \$25,311,895. This compares to June's Approved Budget of \$24,400,145 and November's Revised of \$25,673,882.

Uncertified Salaries & Benefits

Summary

Total Salaries & Benefits variance:

June approved \$40,869,514 vs Projection of \$41,680,410 for an increase of \$810,896.

Summary

While the variance looks favorable for year end, the expenses for the month of August have not been fully tabulated and year-end adjustments have not been accrued.

New Account Structure

The account structure was converted on August 22, 2013. We have provided the Principals and Central Office Staff with sheets showing the old account number and the corresponding new account number. Workshops were completed with Principals and Central Office Staff prior to implementation.

2013-2014 Year End Audit

The preparation of the 2013 – 2014 Financial Statement for year-end will start in early September with the gathering of all outstanding invoices, travel claims and the analysis of outstanding purchase orders. Required adjustments and preparing working papers for deferred revenue, capital assets, payables receivables and other accounts will have to be completed. We are anticipating the Entrance Engagement with the Auditor General to take place at the September's Board Meeting.

Human Resources and Financial Management System

The successful tender for the Human Resources and Financial Management System was awarded to SRB. There were three tenders received that qualified for presentation. We provided scenarios to the three potential vendors to ensure that their systems could perform the accounting requirements of Northland School Division. The scenarios also required that the systems could provide specific information to the users in an efficient manner. The staff developed the scenarios and evaluated each of the three presentations based on the criteria put forth in the RFP. After the presentations were held, and the results of the evaluations were tabulated the tender was awarded to SRB. The implementation is scheduled to occur in May 2014. This process will continue to require input from the staff to ensure that the system will be set up to meet the current and future information needs.

Collective Bargaining

As you are aware there has been an agreement between the Government of Alberta and the Alberta Teachers' Association on a new four year collective agreement. All the ATA locals have voted to accept this agreement. Meetings are in the process of getting scheduled.

Conclusion

The process for nominal roll of First Nation Students must be monitored and status of students affected by this process should be accounted for on a daily basis, especially during the 40% attendance period. At the preparation of the November Revised Budget, a near 100% calculation of the nominal roll students eligible for funding should be known.

Implementation of the new account structure will be completed by August 31, 2013. Staff at central office will be available to answer any questions during the early stages of implementation.

Preparation for updating Mybudgetfile for use in the November Revised Budget and the Year End Audit will be main focus for the fall. In addition preparation for the installation and implementation of the Human Resource and Financial Management system will start during this semester.
